CHAMPIONS

West Indies clinches series against Sri Lanka

1 The result also ended a **23-year wait** for a Test series win over the Lankans

West Indies clinched its first Test series victory since February 2003 after the second Test against Sri Lanka in Antigua ended in a high-scoring draw, sealing a 1-0

triumph. Having crushed Sri Lanka by an innings in the opener, the home side entered the final Test with a rare chance to close out a series and did so comfortably. The

result also ended a 23-year wait for a Test series win over Sri Lanka, with West Indies batting patiently throughout on a placid surface as the visitor failed to force a result.
