

MEN'S & WOMEN'S TEAMS

Both the Indian men and women enter the 2026 edition as the defending champions. Previously, in

Hangzhou, China, the men's team had beaten Iran 33-29, while the women's side edged Chinese Taipei 26-25 to clinch gold. These teams are also the most successful ones in the history of the Asiad. India boasts of eight gold medals in the men's event and three in the women's event.

Only once, in 2018, have the sides missed out on gold. In Jakarta-Palembang, Indonesia, both were denied by Iran, with the men taking bronze after a semifinal defeat and the women settling for silver after losing the final.

Iran, the second-most successful nation with a gold each in the men's and women's events, will be among India's main challengers in Aichi-Nagoya.
