

SWIMMING

India's first-ever Asian Games gold medal came in swimming at the inaugural edition in New Delhi in 1951, when Sachin Nag won the men's 100m freestyle. The country has also won two silver and six bronze medals in the sport, but none since Sandeep Sejwal's third-place finish in the men's 50m breaststroke in Incheon in 2014.

For the upcoming edition in Aichi-Nagoya, a 12-member swimming contingent has been named. Given the dominance of swimmers from China and Japan across categories, a gold medal looks highly unlikely.
