AWAY DOMINANCE

163.72

RCB's batting strike rate in away matches in IPL 2025

Defending champion Royal Challengers Bengaluru thrived on the road last season, winning every away game. The side's batting strike rate of 163.72 in these fixtures was the second-best among all teams, behind Punjab Kings.

Phil Salt set the tone with explosive starts, striking at 180.76, while Jitesh Sharma delivered late-innings fireworks at 224.24. Captain Rajat Patidar anchored the middle order, finishing the season with a strike rate of 170.75.

Amid the power-hitting around him, Virat Kohli played the stabilising role, striking at close to 140 while averaging 99.25 in away matches.

POWERPLAY PRECISION

8.73

Best bowling economy in the first six overs in IPL 2025

RCB's new-ball attack was among the most effective in the tournament. The side conceded the lowest economy rate in the PowerPlay and also picked up the most wickets (27) during the first six overs.

Josh Hazlewood and Bhuvneshwar Kumar led the charge. Hazlewood conceded just 7.27 runs per over while claiming 10 wickets, while Bhuvneshwar took eight wickets at an economy of 8.03.

PLAYER TO WATCH

Back at RCB, Devdutt Padikkal could play a crucial role in balancing the top order. His ability to rotate strike while accelerating against pace gives the Royal Challengers added stability alongside their power-heavy batting lineup.
