

# COOPER CONNOLLY

## UNDERUSED SPIN?

# 510

**Deliveries of spin bowled in IPL 2025**

Punjab Kings made limited use of spin, bowling just 510 deliveries across 16 matches, the second-lowest among all teams.

This was surprising given its effectiveness. The spin unit picked up 32 wickets, the joint second-highest in the league, and recorded the best dismissal rate (15.9).

For most of the season, Punjab relied on either Yuzvendra Chahal or Harpreet Brar, supported by part-time overs from Glenn Maxwell. With the addition of Cooper Connolly, the side may look to increase its reliance on spin, provided it improves on an economy rate of 9.04.
