

« I will tell Vaibhav not to do many press conferences, not interact with the media much, just enjoy. [I request the media], don't call his manager to talk to him. Let him play his cricket. — Riyan Parag, RR captain »

Highest PowerPlay run rate in IPL 2025

Despite an underwhelming season overall, Rajasthan Royals was the most explosive side in the first six overs. It was the only team to score at over 10 runs per over in the PowerPlay, combining aggression with consistency.

The left-handed pair of Vaibhav Suryavanshi and Yashasvi Jaiswal led the charge. Suryavanshi struck at a remarkable 205.71, the highest among batters with a minimum of 100 runs in this phase, while Jaiswal's 177.40 placed him fourth on the list. Royals also averaged 50.77 in the PowerPlay, the third-best in the competition.

NEW-BALL FIX?

22

Sushant Mishra's wickets in SMAT 2025-26

Left-arm pacer Sushant Mishra, signed for ₹90 lakh, arrives after an impressive domestic season. He was the joint-highest wicket-taker in the Syed Mushtaq Ali Trophy, claiming 22 wickets at an average of 17.18.

Mishra built a reputation as a death-overs specialist, taking 13 wickets between overs 16 and 20 while maintaining an economy of 8.47. With Rajasthan Royals conceding heavily at the death last season, his addition could address a key weakness.

PLAYER TO WATCH

Ravindra Jadeja brings balance across departments with his all-round ability. His control in the middle overs and finishing skills with the bat could prove vital for a side looking to plug gaps in both phases of the game.
