**Jason Holder:
joint-leading
wicket-taker at the
death in T20Is since
2025**

West Indies all-rounder Jason Holder arrives as a multi-phase option for Gujarat Titans. Since 2025, he has been among the most effective bowlers at the death in T20Is, with 19 wickets at an economy of 9.21.

At the recent T20 World Cup, Holder showcased his versatility, picking up 10 wickets across phases, including key contributions in the middle overs and at the death.

With his ability to contribute with both bat and ball, Holder could help address some of the balance issues within the side.
