

Three-move Shedy cycles

By C.G.S.Narayanan

Three-move compositions with closed cycles involving white's second and third moves such as Lacny shift and Rice cycle were presented in earlier articles in these columns. In this article we would look at Shedy cycle where the threat and mates after two specific black defences form a pattern ABC-BCA after a try and post key. The three problems presented in this article are taken from the book 'Cyclone 2' by Peter Gvozdjak, the Czech Grandmaster who revels in cyclic play.

Mate in three moves

In the first example the try 1.axb4? has a threat 2.Ba7 A any 3.Bxc5. Now after the defences by BNC5 1...Nxd3 2.e3+ B Kc4 3.Nd6 1...Nxe4 2.Ne6+C Kxd5 3.Ne7 but refuted by 1...Bxd5!

Key 1.Bxg2! Threat 2.e3+ B Kxd3 3.Bf1 1...Nxd3 2.Ne6+C Kc4 3.Nd6 1...Nxe4 2.Ba7+A Nc5 2.Ne6

The threats in try 1.axb4? and after post key, the second move continuations for the defences by the BNC5 form the pattern ABC-BCA

Mate in three moves

Try 1.Nf3? threat 2.Qc8+ A Kd5 3.Bf7 1...Nf4 2.Bf7+ B Kxf5 3.Nxh4

1...Nd4 2.e4 C Qxe4 3.Ng5 but Qxh5!

Key 1.Nd3! thr 2.Bf7+ B Kxf5 3.Qc8

1...Nf4 2.e4 C Rxe4 3.Nxc5

1...Nd4 2.Qc8 A Kd5 3.bxc4

A Shedy cycle from the author of the book for solving.
