

TILAK VARMA

To be honest, we have prepared since the last one and a half years. We have prepared to bat at any position for the team. We are up for it and in the right mindset to bat at any position.

[The fielding] Actually, when the team needs it, the boys always stand up in the field. Today, I won't say it was the best fielding, but we took some good catches and, at the end of the day, I'm happy we won the final. The next couple of days will be a big party with the boys.

[On his role] It was always there to hit some big sixes. That was my role from the first day of the tournament.

I always back myself and think that whenever I get the opportunity, I'll hit some sixes. I have developed a lot in my bowling, but it didn't come off in this tournament. Hopefully, I will do better in the future.

ABHISHEK SHARMA

The captain and coach had faith in me. Even I was doubting myself. I had never experienced this before; it was a tough tournament.

I was just doing my process, trying to take it one game after another, but it wasn't easy. But I love this team because of the way they backed me. It wasn't easy for me because, going through the whole year, I was doing well for the team, but in the big tournament, I wasn't able to.

The crowd has supported us a lot, even through tough times.
