

Yastika can maximise the PowerPlay at No. 3. If India starts strongly, Jemimah can enter later and maintain momentum.

World Cup horizons and beyond

If India is to secure its maiden T20 World Cup trophy, its batting unit will need to fire against the tournament's strongest sides, beginning with Australia and South Africa. Beyond the T20 World Cup, developing a group of young batters capable of adapting to different situations could prove significantly beneficial in the long term as India looks to take its game from strength to strength.

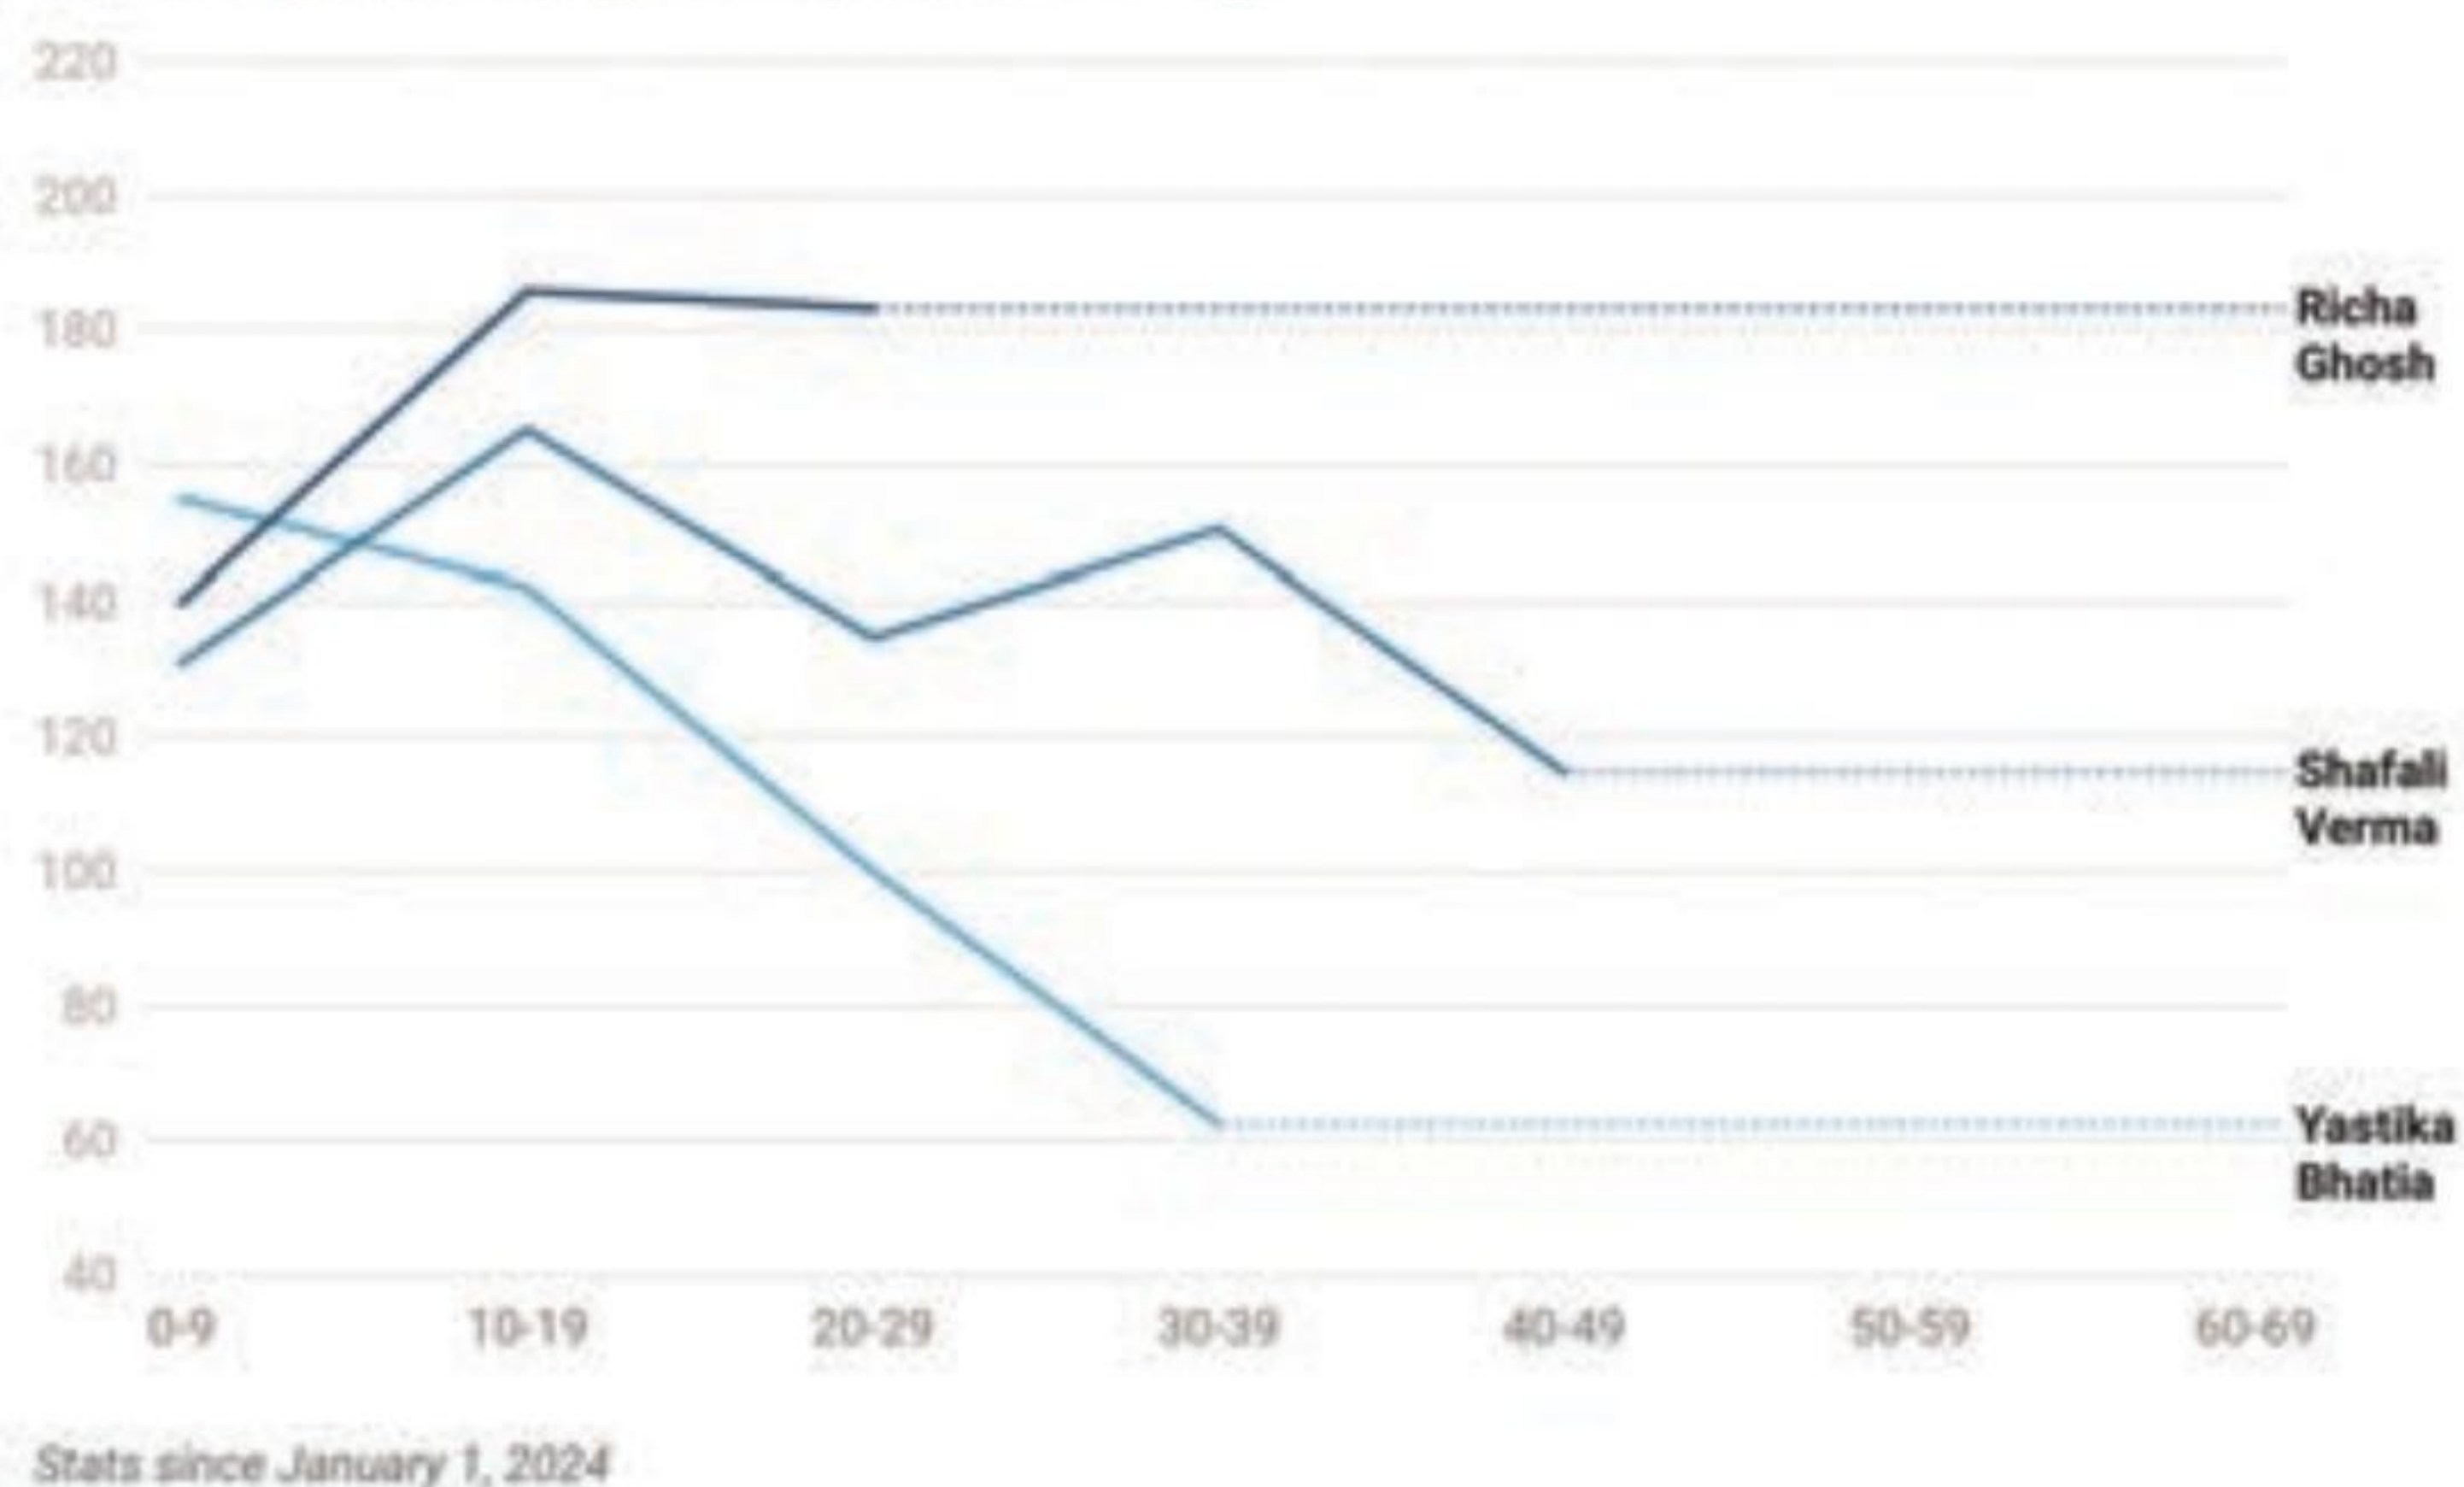

The accelerators: Smriti, Harmanpreet, and Jemimah by 10-ball intervals

Smriti Mandhana, Harmanpreet Kaur, and Jemimah Rodrigues all show a tendency to start slowly in their first 10 balls before accelerating as the innings progresses.

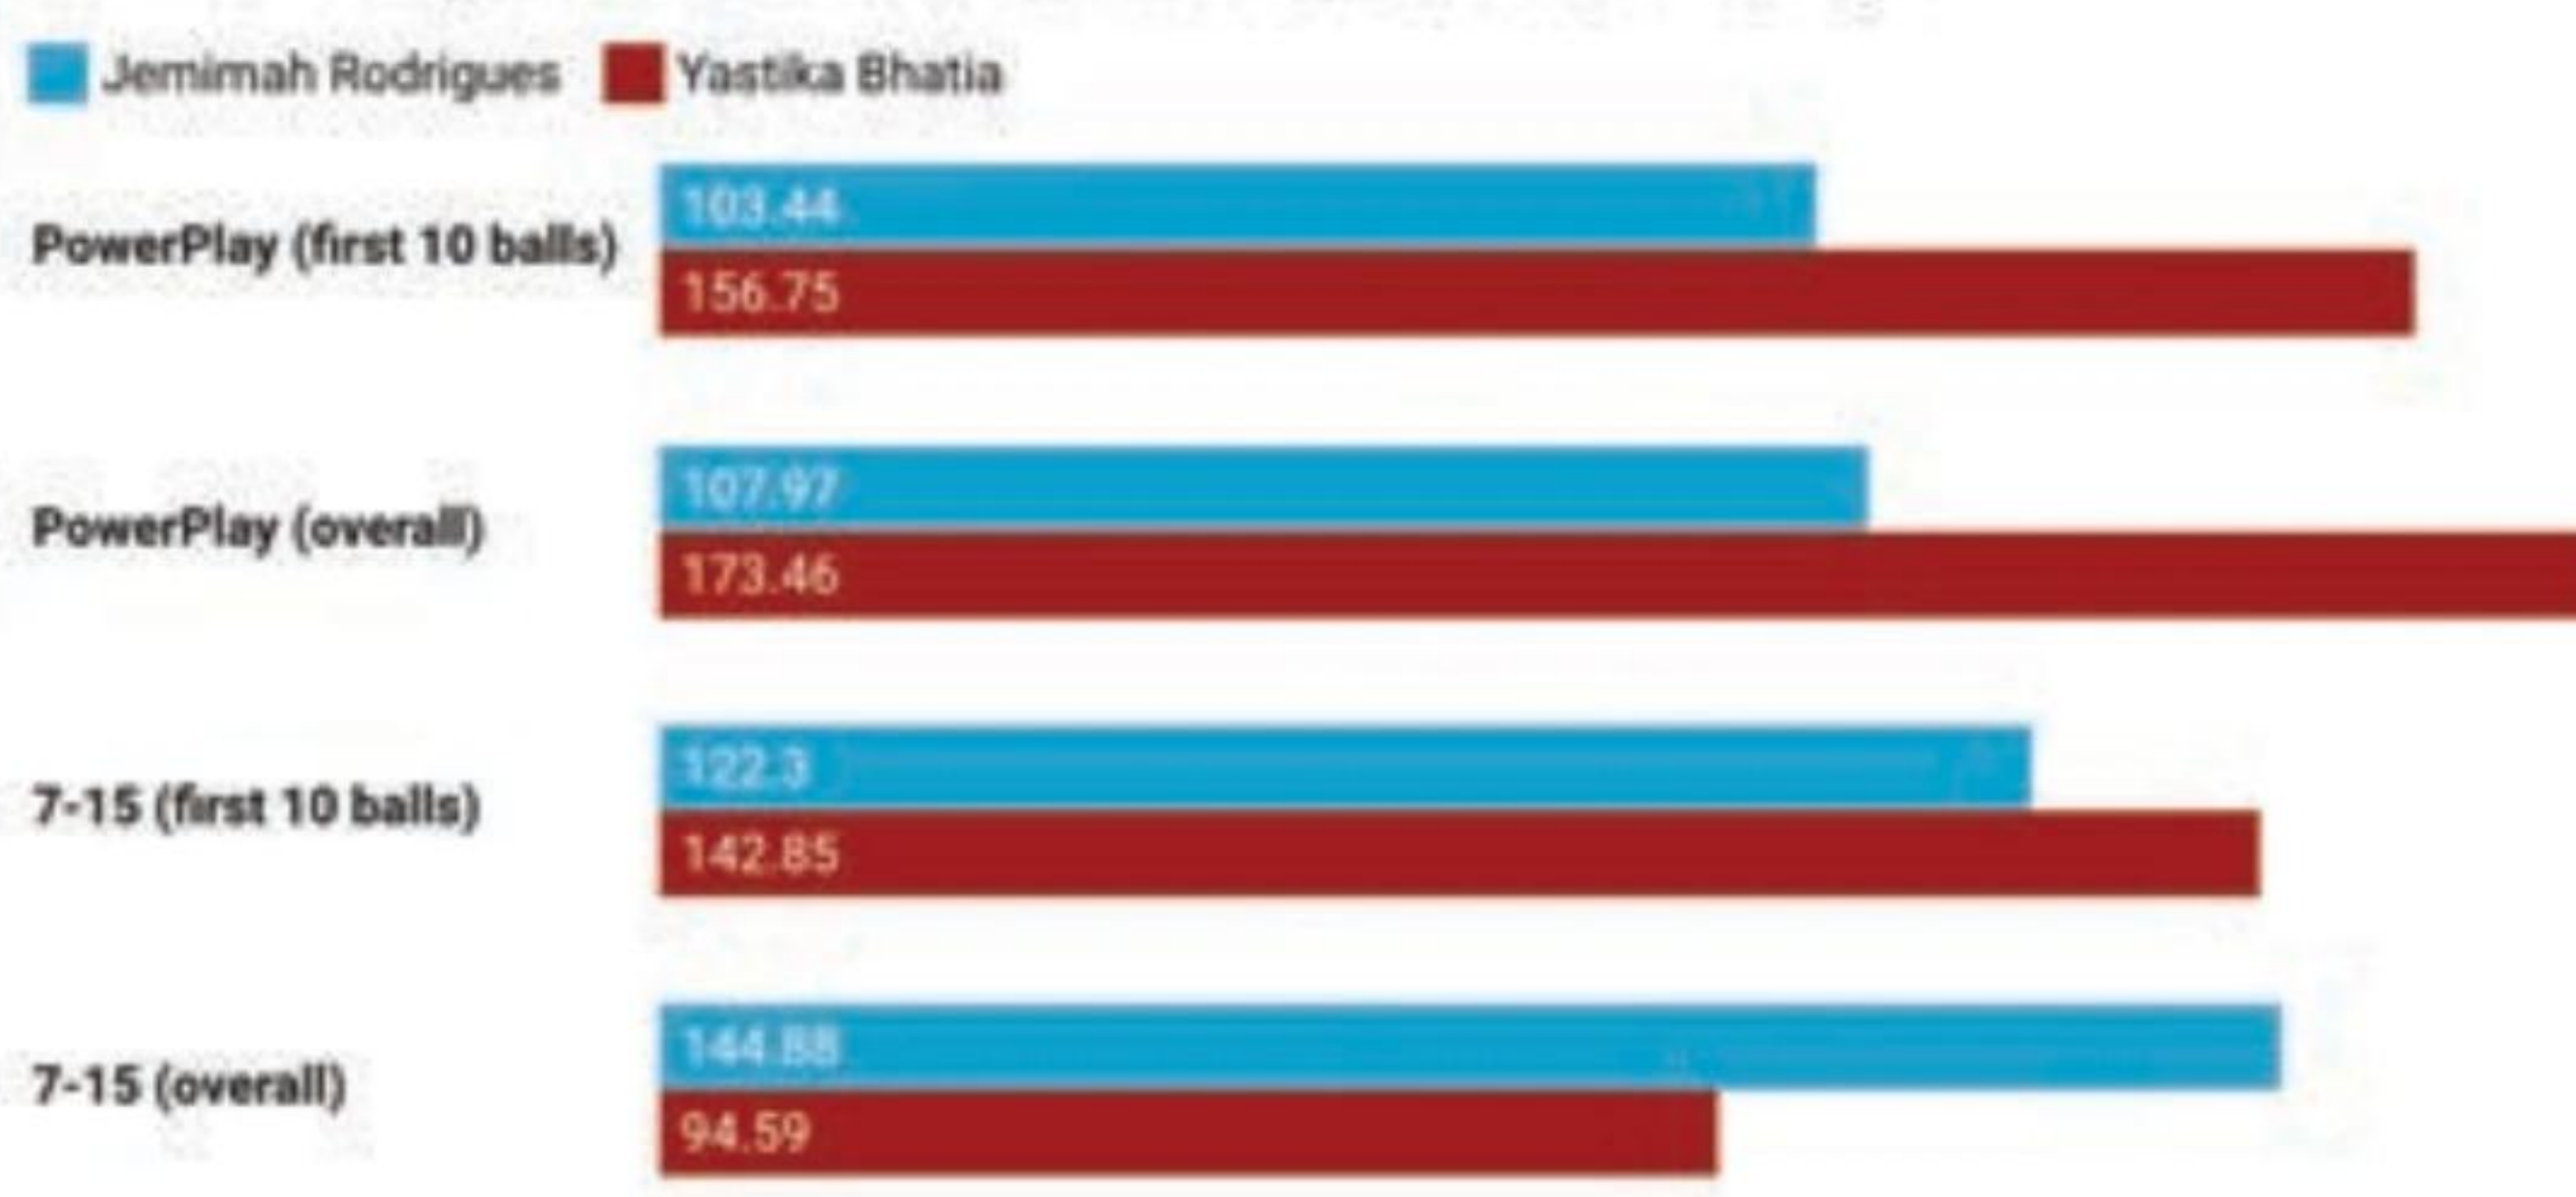

The aggressors: Shafali, Richa, and Yastika by 10-ball intervals

Shafali Verma, Richa Ghosh, and Yastika Bhatia are among the quicker starters in this Indian side, though their innings tend not to last as long.

Entry point jigsaws: Yastika Bhatia and Jemimah Rodrigues' strike-rates during and after the PowerPlay

Yastika Bhatia has utilised the PowerPlay effectively in her limited appearances for India, while Jemimah Rodrigues has been a quicker starter outside the PowerPlay.
