The 2027 men's ODI World Cup, to be hosted by South Africa, Zimbabwe and Namibia, has been provisionally scheduled to run from October 4 to November 21. Bangladesh created history by securing its maiden ODI series win over Australia, defeating the visitor by five wickets via the DLS method in the second match. Before this series, Bangladesh had won just three of the 25 ODIs it had played against Australia. The host had also waited 21 years for only its second ODI victory over Australia, a drought that ended with an 86-run win in the series opener. Australia eventually squeaked out a nail-biting one-wicket victory over Bangladesh in the third and final ODI to avoid a whitewash.
