

Capacity: **69,000**

LUMEN FIELD

Location: Seattle, Washington, USA

Home team: Seattle Seahawks (NFL), Seattle Sounders FC (MLS)

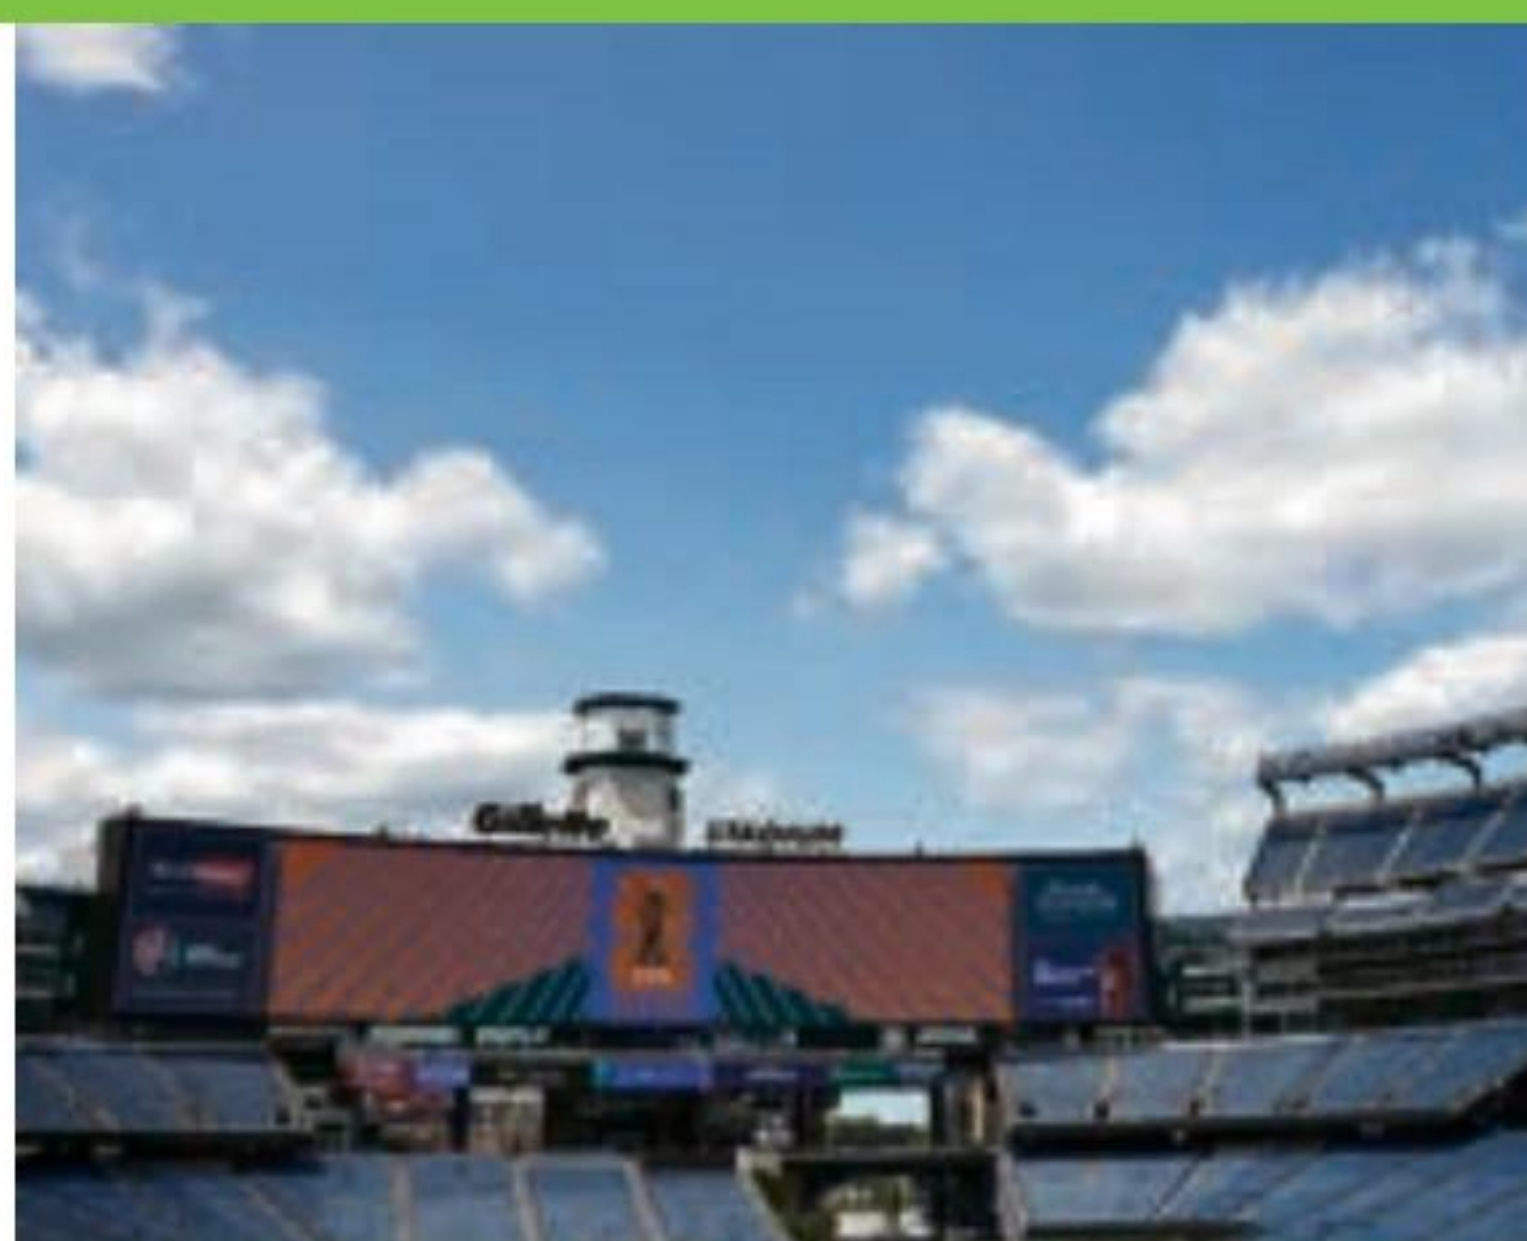

History: Opened in 2002, it has hosted MLS Cup finals, Gold Cup, Copa América Centenario and Club World Cup matches.

Food/Culture: Seattle's flavour combines coffee culture, seafood, Pike Place Market staples, Asian-influenced restaurants and craft beer, with vibrant waterfront and downtown food scenes nearby.

Venue upgrades: One of the more urban World Cup settings, the stadium sits close to downtown Seattle, Pioneer Square and the waterfront. Though primarily an artificial turf venue, it will feature a temporary hybrid natural grass surface for the World Cup, supported by a drainage layer, sand base and water-management system. The grass will be removed after the tournament.

Weather: Temperatures typically hover around 22-26°C and cooler evenings.

World Cup 2026: Six matches, including sixth Round of 16 clash

Capacity: **65,000**

GILLETTE STADIUM

Location: Foxborough (Boston area), Massachusetts, USA

Home team: New England Patriots (NFL), New England Revolution (MLS)

History: Opened in 2002, it hosted matches during the 2003 FIFA Women's World Cup and has since welcomed Gold Cup and Copa América Centenario fixtures.

Food/Culture: New England classics such as clam chowder, lobster rolls, oysters and Boston baked beans shape the local flavour, while Patriot Place adds a stadium-side dining and entertainment district.

Venue upgrades: After using synthetic turf since 2006, the venue is returning to natural grass for the World Cup. Located in the Greater Boston area rather than Boston proper, its hybrid-reinforced grass surface has been laid over the original sand layer, while grow lights help offset shade from the stands.

Weather: Average summer highs of around 27-28°C.

World Cup 2026: Seven matches, including first quarterfinal

Capacity: **65,000**

HARD ROCK STADIUM

Location: Miami Gardens (Miami), Florida, USA

Home team: Miami Dolphins (NFL)

History: Opened in 1987 as Joe Robbie Stadium, the venue has hosted six Super Bowls, the Copa América 2024 final, the Miami Open, the Miami Grand Prix and Club World Cup matches.

Food/Culture: Miami's identity comes through in Cuban sandwiches, cafecito, pastelitos, seafood and Caribbean and Latin American cuisine, while Little Havana and South Florida nightlife enrich the wider matchday atmosphere.

Venue upgrades: Situated in Miami Gardens rather than central Miami, the venue will feature a Bermuda grass hybrid surface using sod grown at the stadium's own farm. Grow lights are also required due to shade created by the canopy.

Weather: Conditions are expected to be hot and humid, with average highs of around 31-32°C and the possibility of summer rain.

World Cup 2026: Seven matches, including third quarterfinal and third-place match
