

ESTADIO AKRON

Location: Guadalajara, Jalisco, Mexico

Home team: CD Guadalajara (Liga MX)

History: Opened in 2010, the stadium's first major match was Chivas vs Manchester United, and it later hosted ceremonies during the 2011 Pan American Games.

Food/Culture: Guadalajara and Jalisco bring flavours such as tortas ahogadas, birria, carne en su jugo, tequila and mariachi culture, with a strong street-food identity.

Venue upgrades: Located in Zapopan on Guadalajara's western edge, the venue sits within a raised, green, coliseum-like structure. As a football-specific stadium, it has focused on pitch technology and tournament upgrades, including a Bermuda grass hybrid surface and improvements such as sand, gravel and drainage lines to manage moisture.

Weather: Average summer highs of around 27-31°C.

World Cup 2026: Four group matches

BMO FIELD

Location: Toronto, Ontario, Canada

Home team: Toronto FC (MLS), Toronto Argonauts (CFL)

History: Opened in 2007, it is Canada's first football-specific stadium.

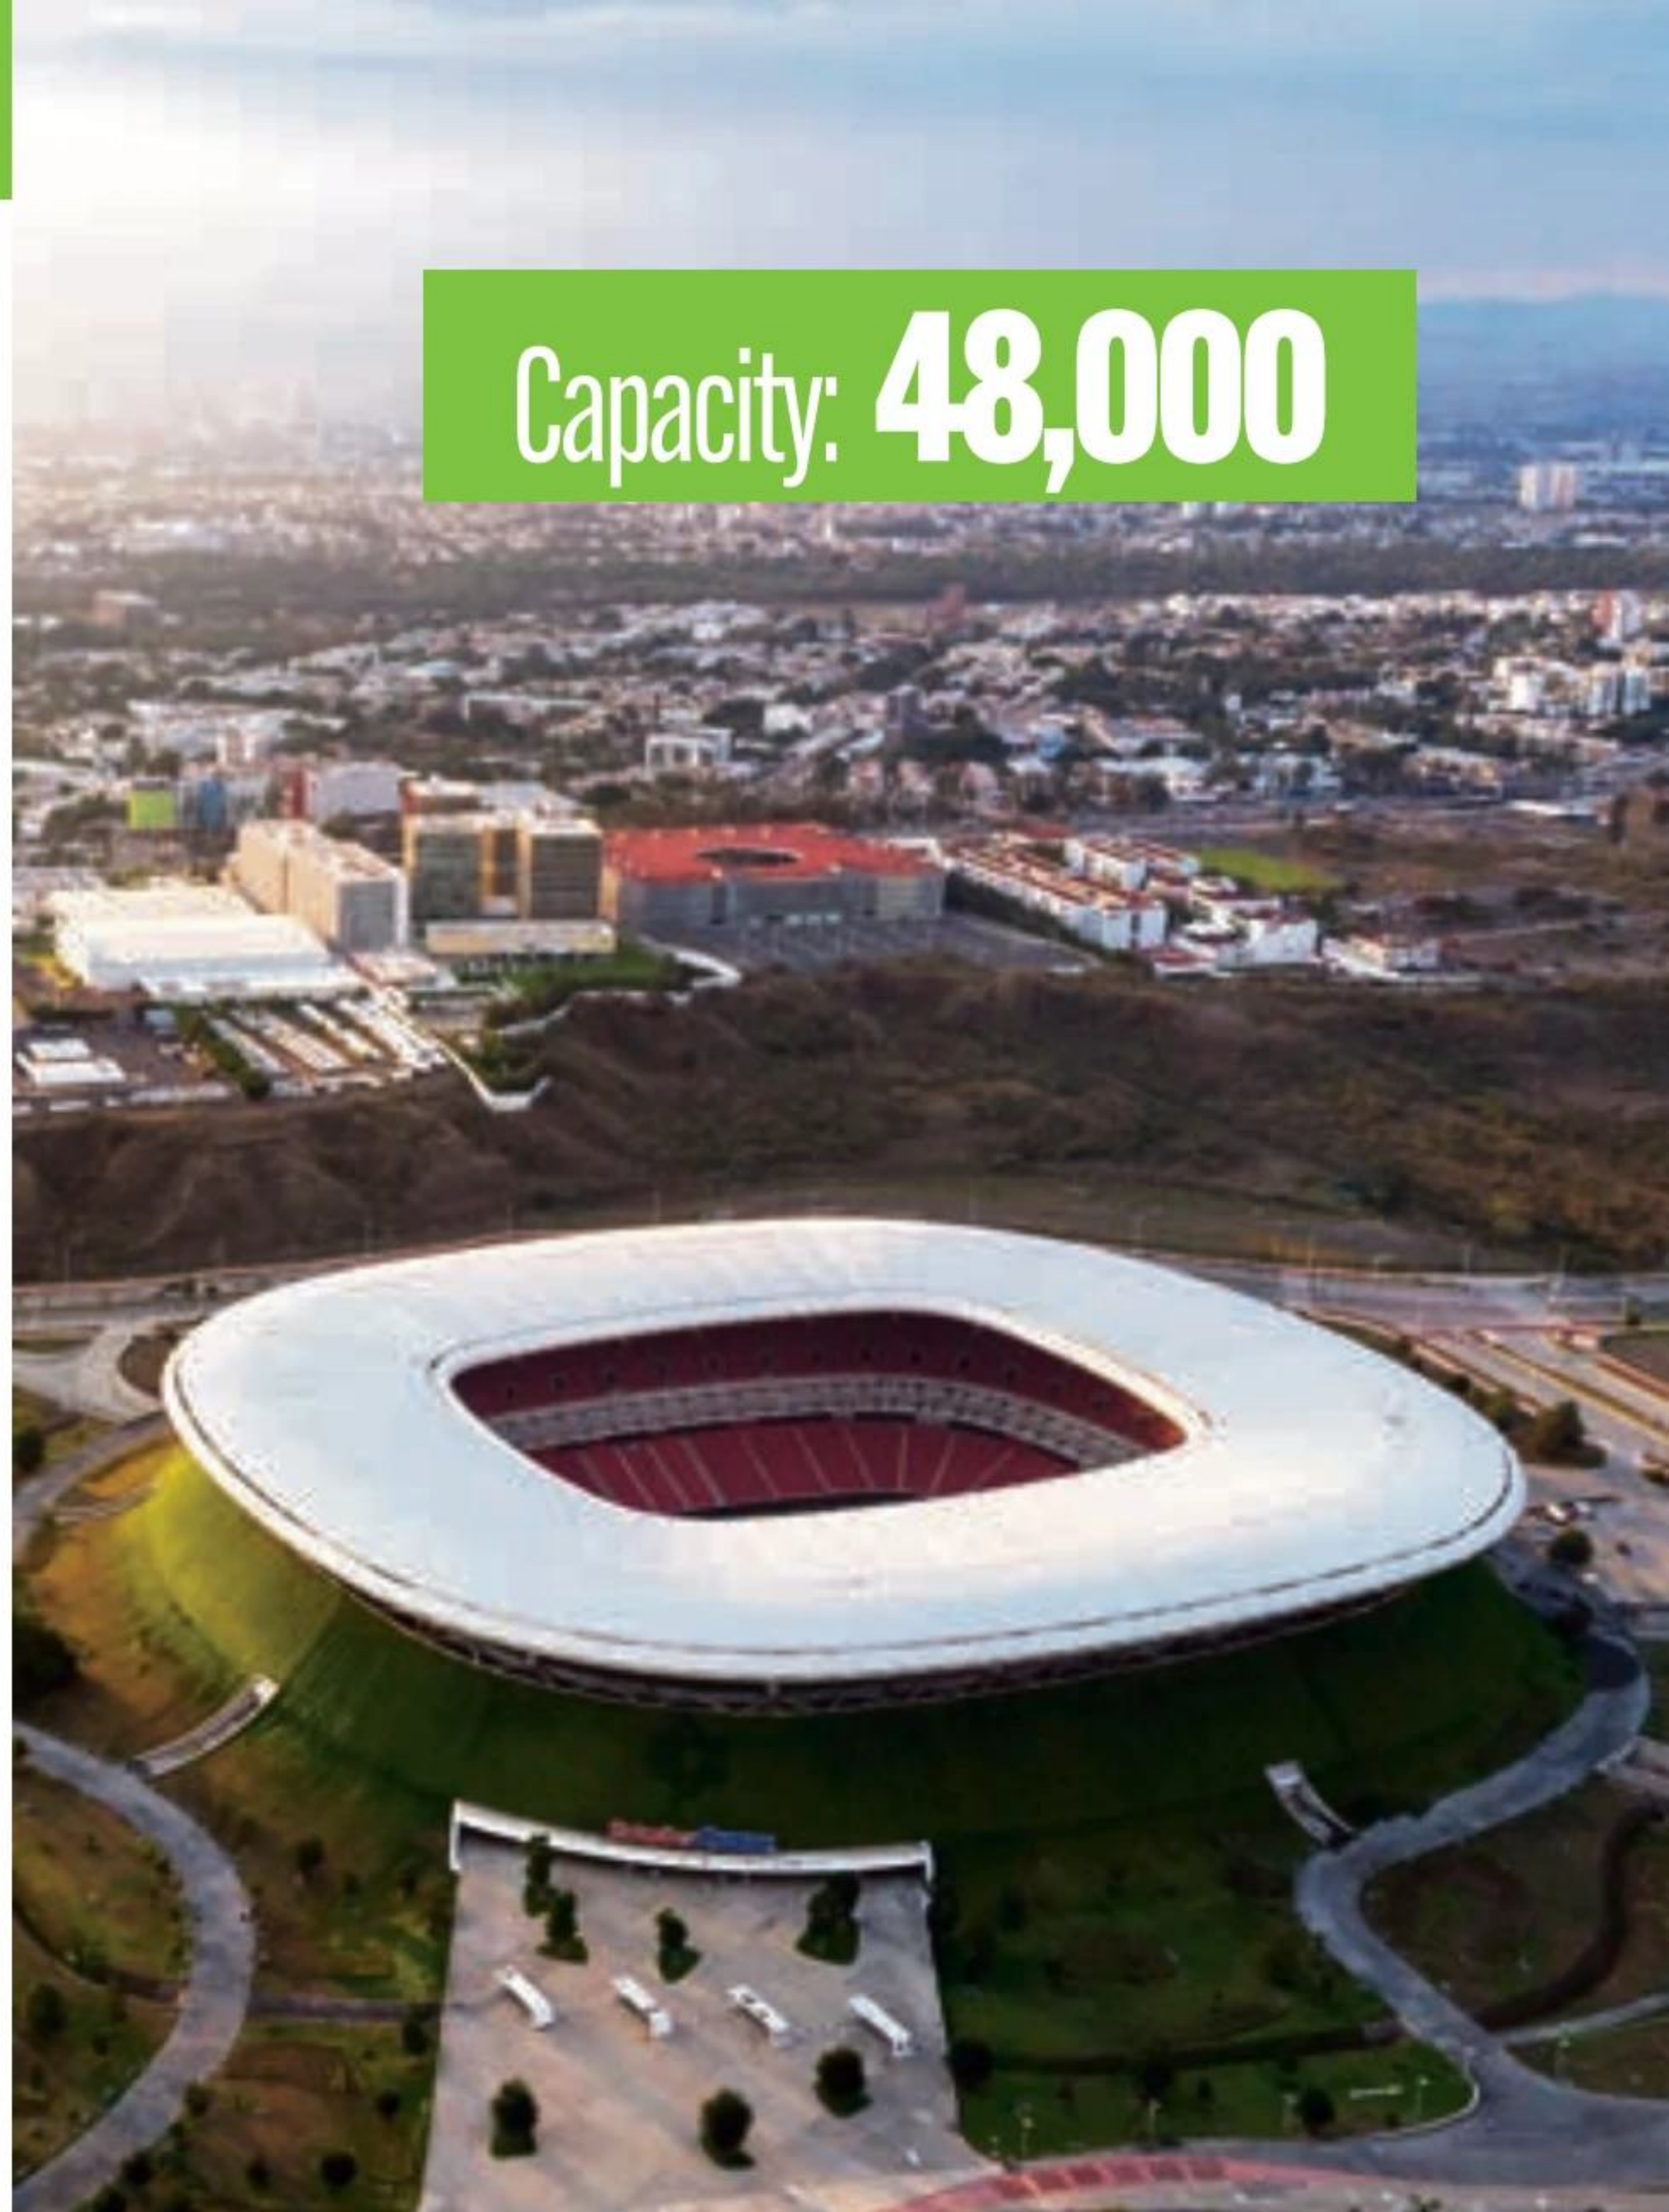

Food/Culture: Reflecting Toronto's multicultural identity, the surrounding food scene includes St. Lawrence Market, peameal bacon sandwiches, and strong Caribbean, South Asian and East Asian influences, all set against a lakefront backdrop.

Venue upgrades: Located at Exhibition Place along the lakefront and close to downtown Toronto, its existing natural/hybrid grass venue has received a new root zone and synthetic fibre reinforcement, while grow lights and underground heating will be used for pitch maintenance. Temporary seating has also been added to meet FIFA's minimum capacity requirement.

Weather: Average summer highs of around 24-25°C.

World Cup 2026: Six matches, including 12th Round of 32 clash

Capacity: **48,000**

Capacity: **45,000**
