

GEHA Field at Arrowhead Stadium

Capacity: **73,000**

Location: Kansas City, Missouri, USA

Home team: Kansas City Chiefs (NFL)

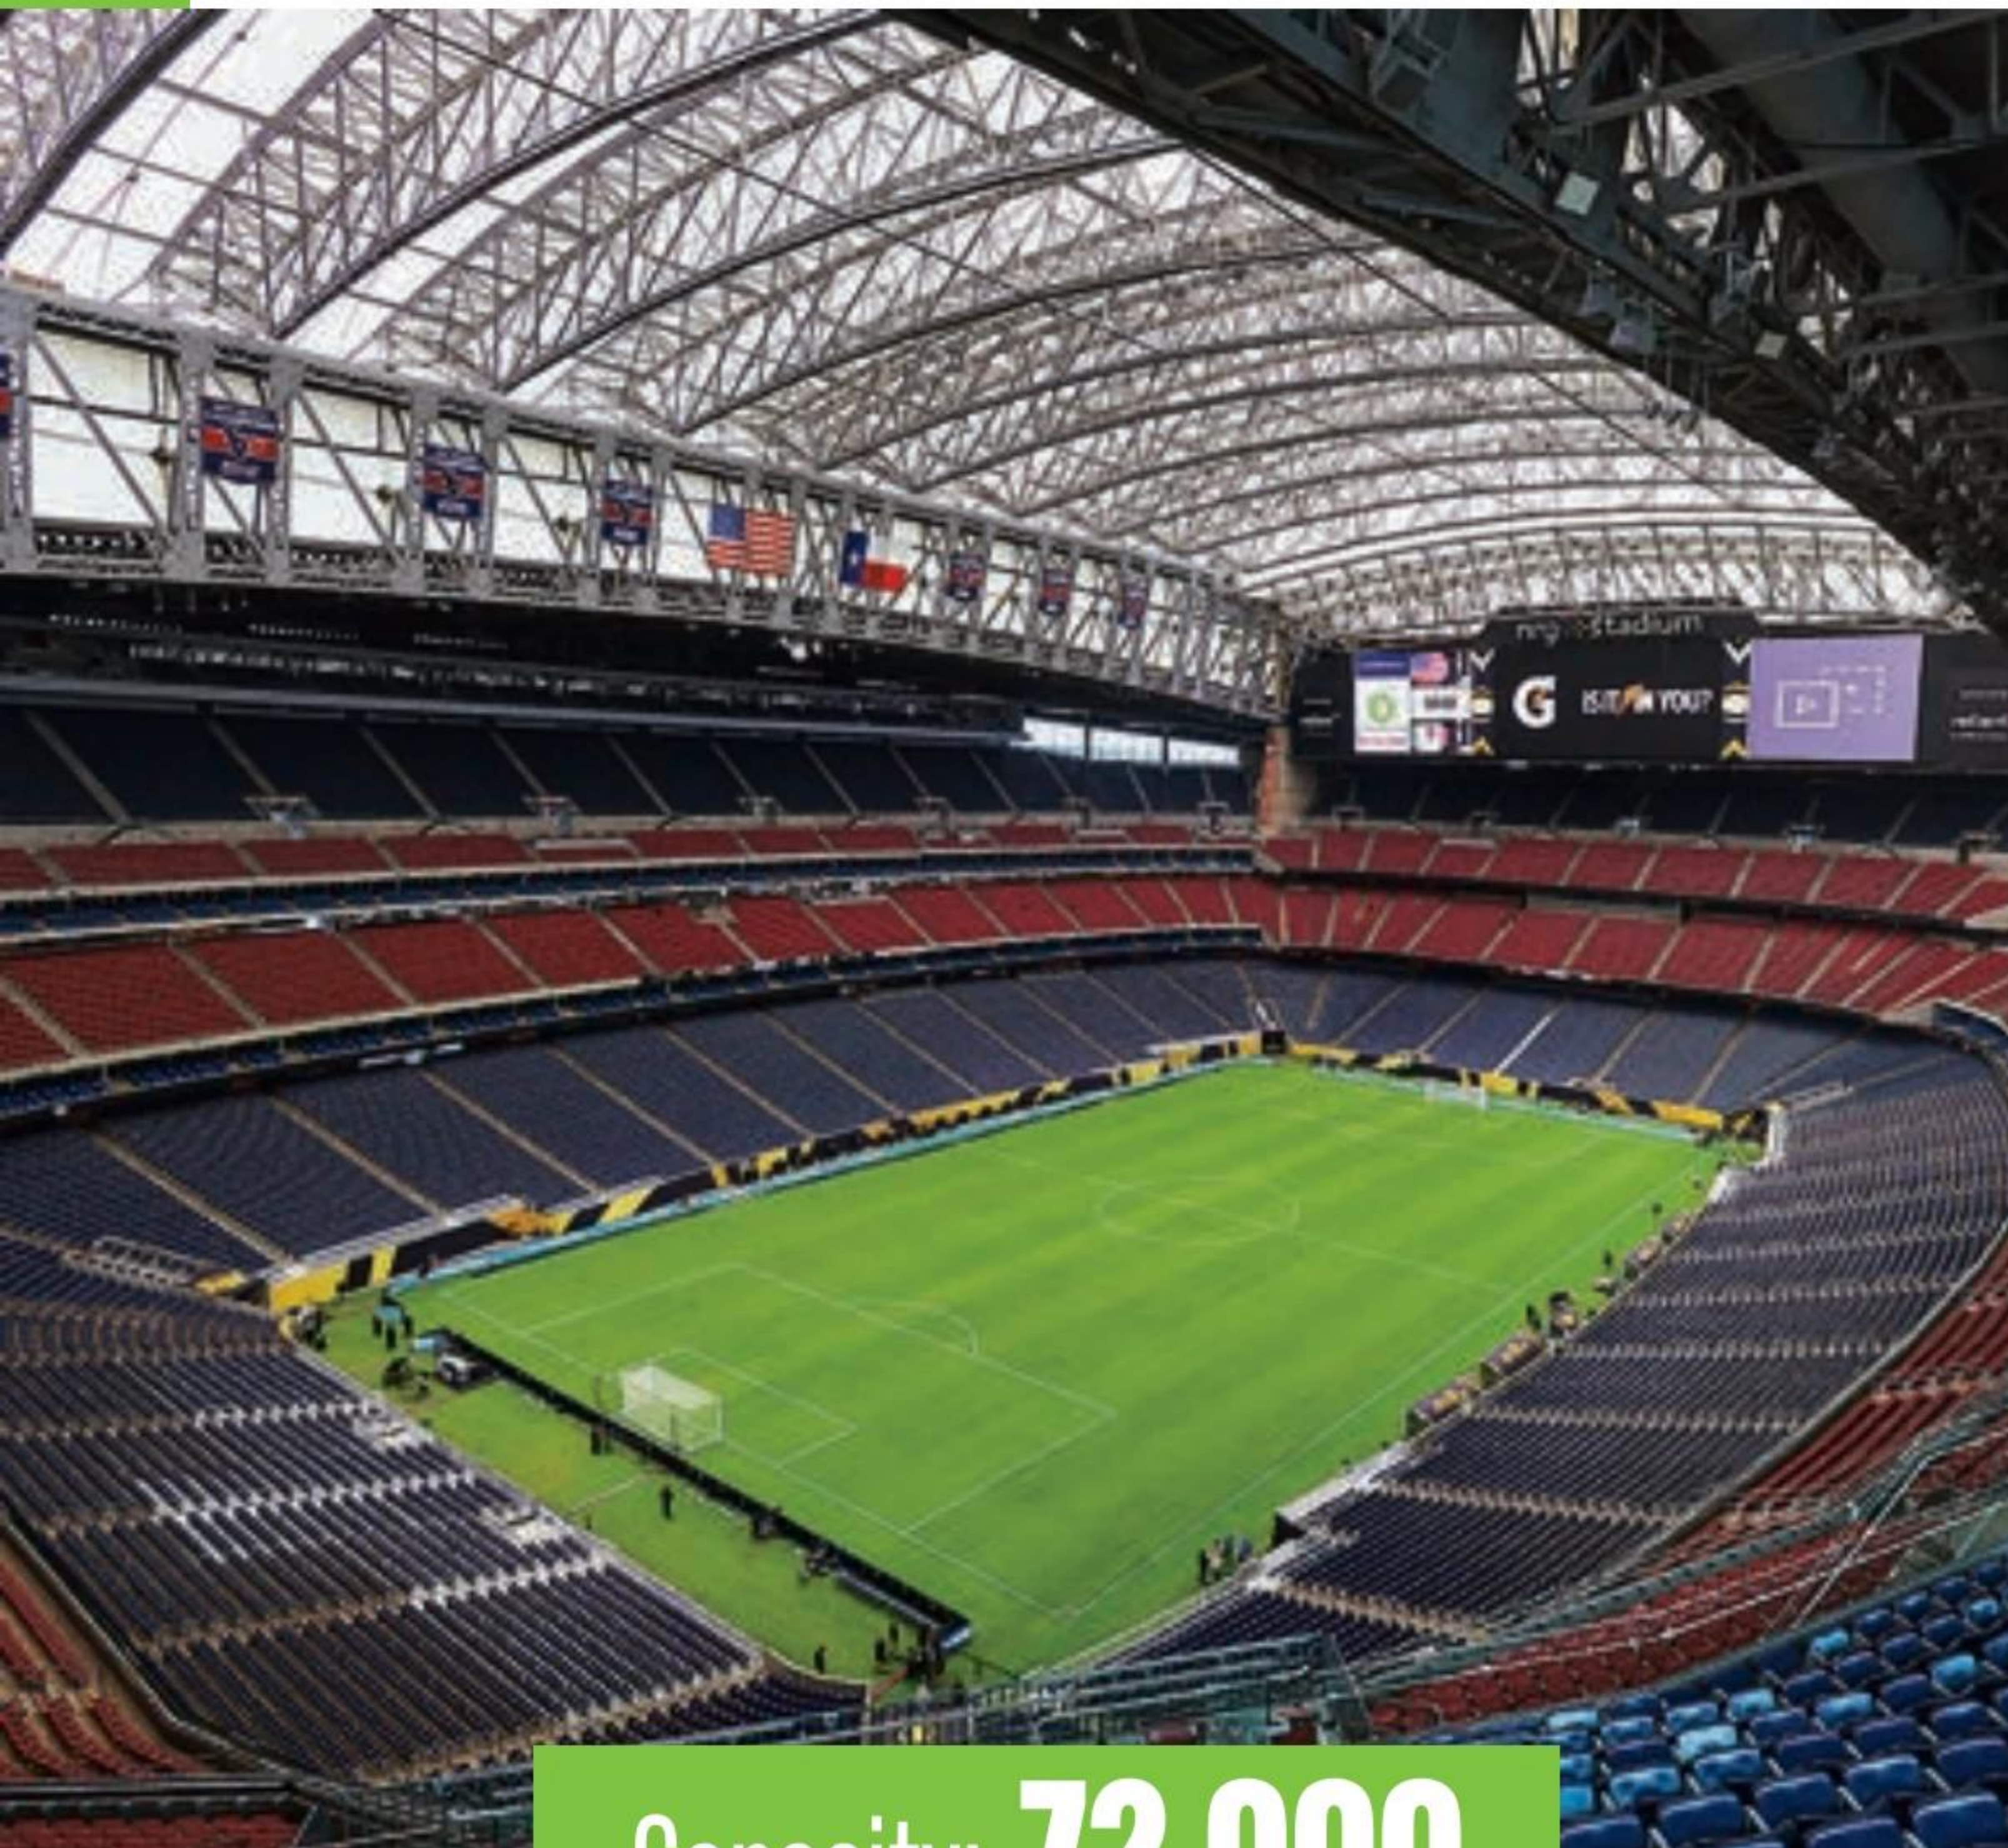

History: Opened in 1972, with major renovations between 2007 and 2010.

Food/Culture: Kansas City leans into its barbecue heritage – ribs, pork, smoked brisket and its signature sweet-spicy sauces.

Venue upgrades: The field has been widened by approximately 20 yards to meet FIFA standards, with around 3,500 seats reconfigured using removable systems, primarily along the sidelines.

Weather: Highs of 33-35°C, often accompanied by heavy humidity.

World Cup 2026: Six matches, including fourth quarterfinal

Capacity: **72,000**

NRG Stadium

Location: Houston, Texas, USA

Home team: Houston Texans (NFL)

History: Opened in 2002, it was the first NFL stadium with a retractable roof.

Food/Culture: Reflects Houston's diversity: Texas barbecue, Tex-Mex, Vietnamese, West African cuisine and Gulf Coast seafood.

Venue upgrades: Corner seating will be replaced with aluminium platforms, while a temporary natural grass surface will be installed. The retractable roof and air-conditioning will mitigate Houston's extreme outdoor heat. The venue forms part of the expansive NRG Park complex rather than a downtown district.

Weather: 33-35°C with high humidity.

World Cup 2026: Seven matches
