all he was the son of an Olympic gold medallist and an Asian champion in Rajbir aunty. I remember when we played tournaments at the academy or in the village, he would always be scoring goals.

“Unfortunately, he suffered a serious calf injury and stopped playing in 2020. Despite that, there’s never been a hint of jealousy. He’s been one of my biggest supporters. I’m lucky to have someone like him on my side.

“He was one of the first people I called after I won bronze in Tokyo. When I came back from the Olympics, he was at the airport, and he was in the jeep with me during our ride of

honour around the city,” says Hardik.

When Hardik (**above**) comes home, he often walks over to Gurmail’s house a few minutes away to spend time with Shubh or play video games. There he sees the Olympic gold medal that Gurmail finally mounted a few years ago. Even now, Hardik has never asked to hold it.

“There are too many emotions associated with that medal. I don’t think it would be fair or right for me to hold it. That’s the ultimate prize in hockey. I might have two bronze medals, but an Olympic gold is an Olympic gold. I have to win my own,” he says.
