

Arshi races to victory

Nine-year-old Arshi Gupta of Delhi Public School, Faridabad, created history by winning the 2025 FMSCI Indian Rotax Max National karting championship, becoming the first girl to claim the title in the event's 21-year history.

Competing in the Micro Max class (8-12 years), Arshi clinched the championship at Bengaluru's Mecro Kartopia circuit. Born on October 18, 2016, she races under Leapfrog Racing and achieved this feat in just her second season of competitive karting.

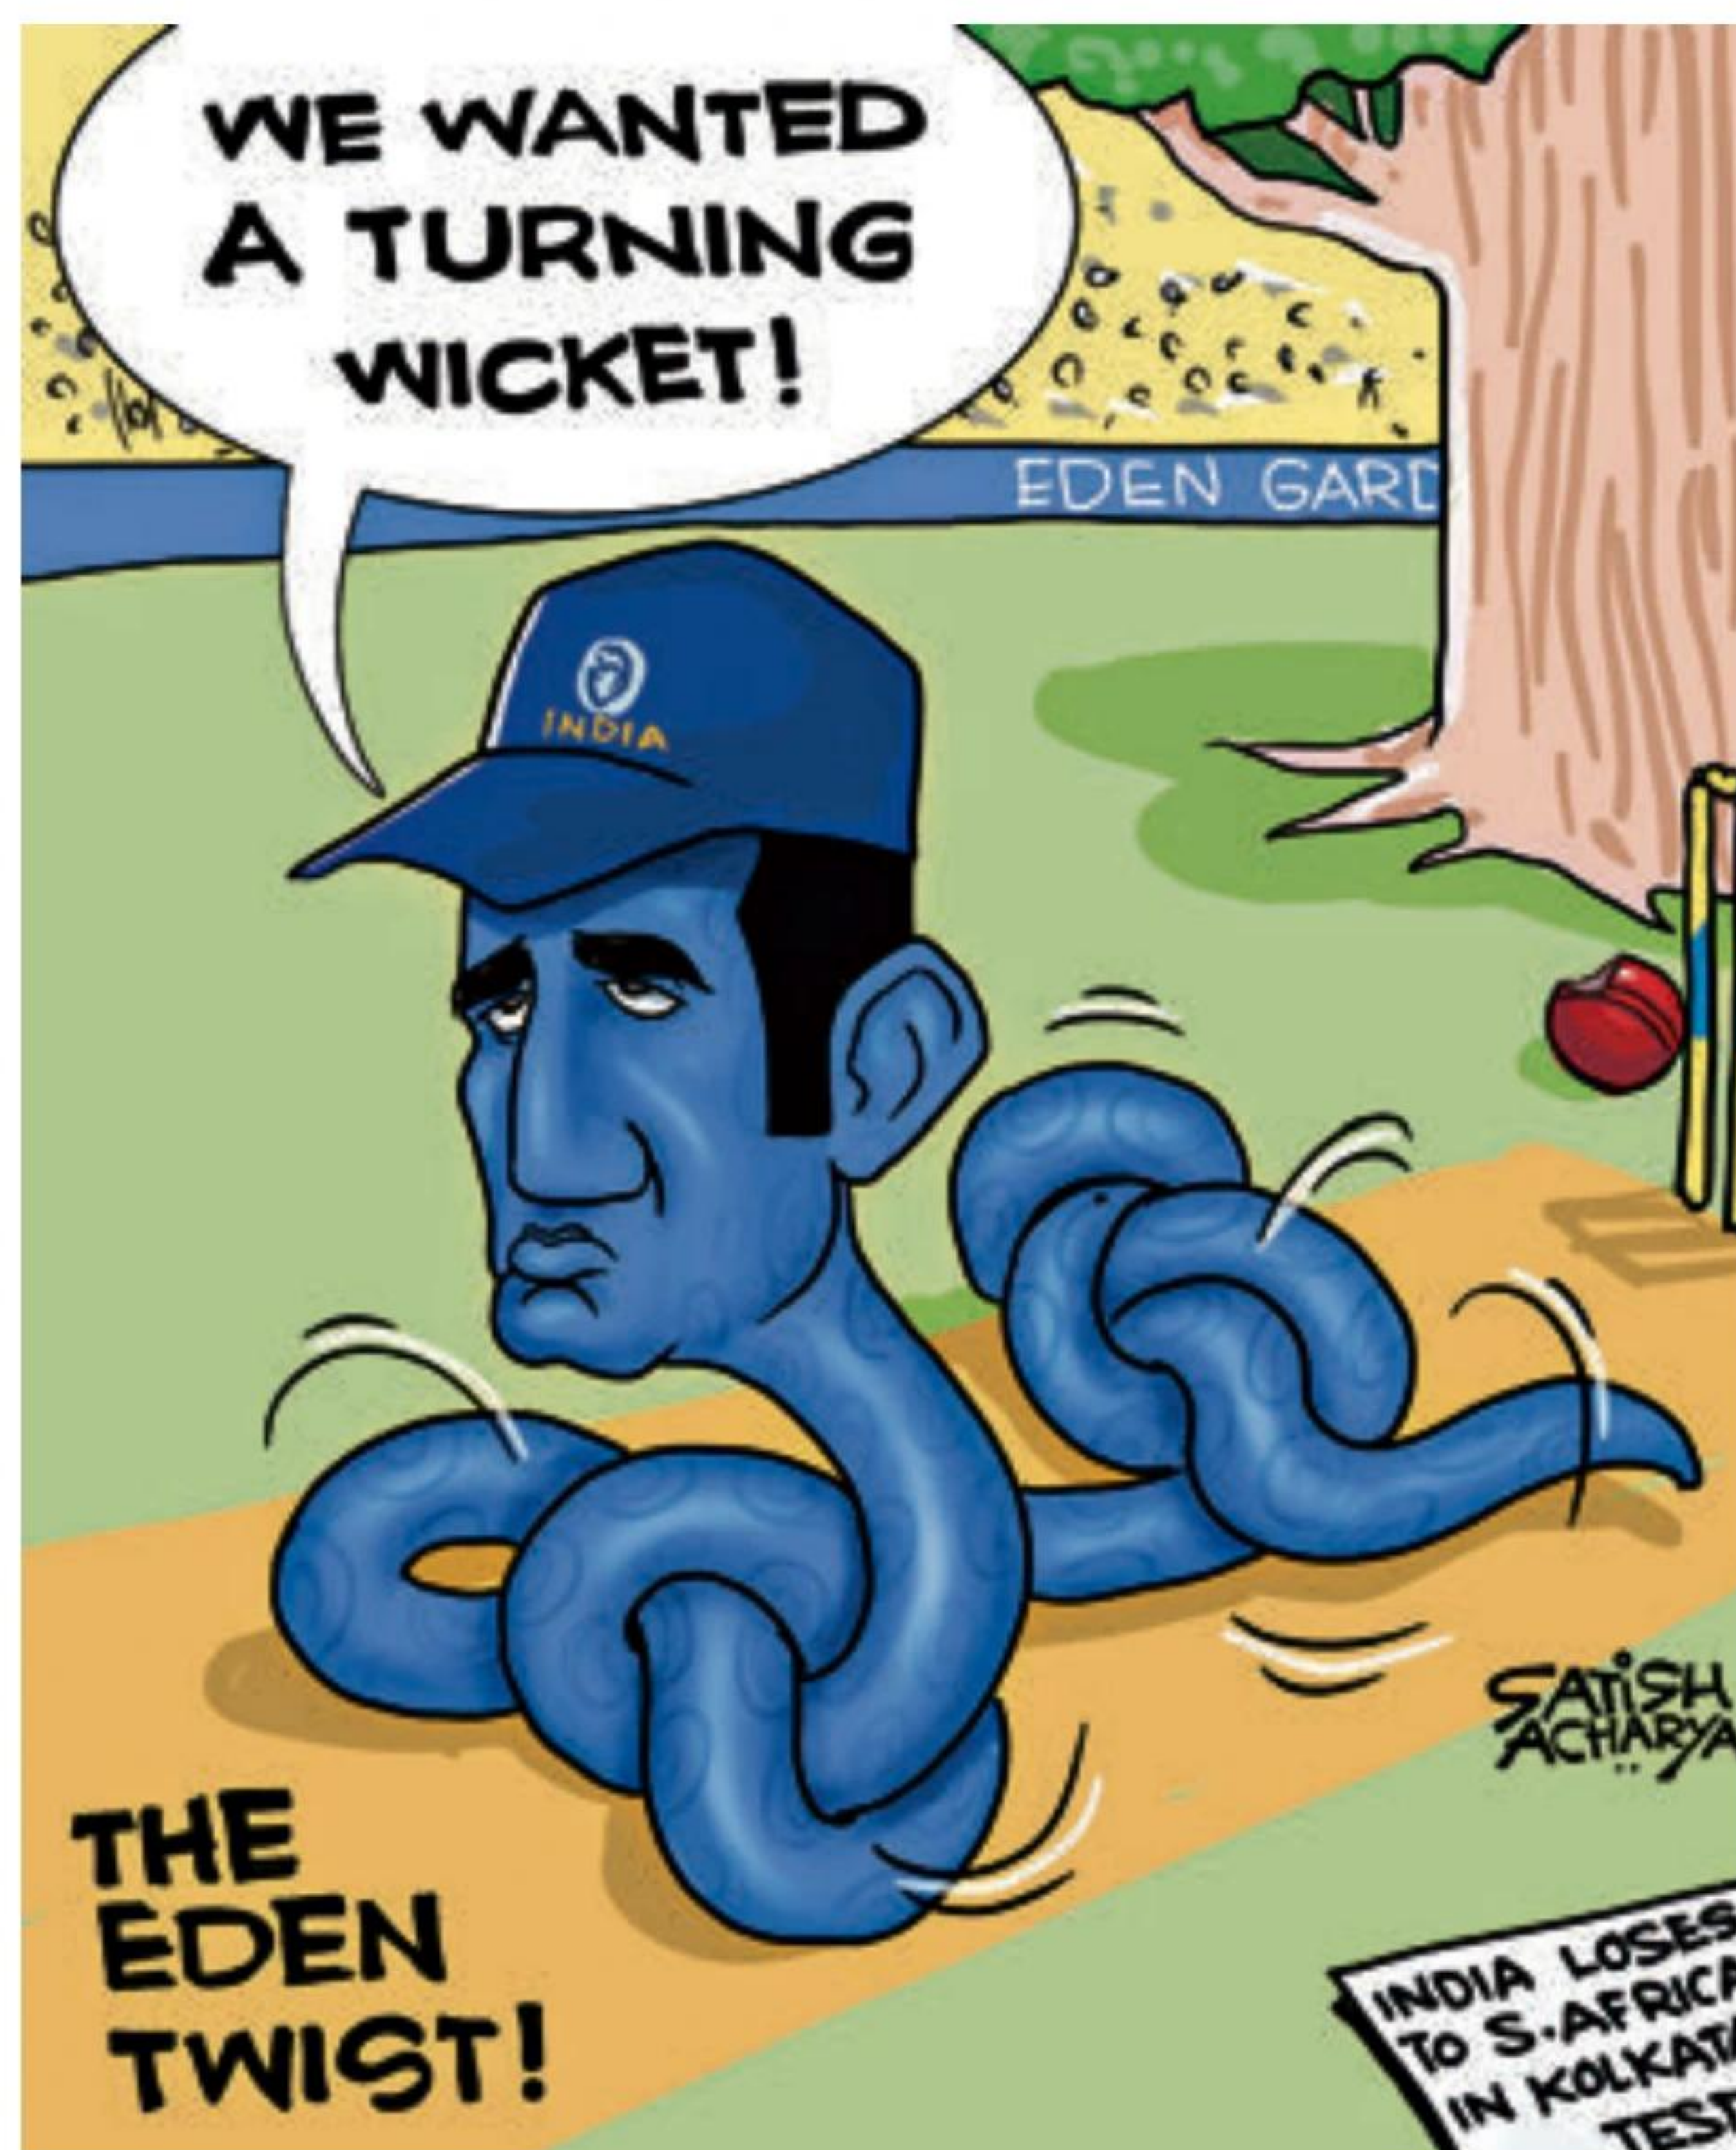

After stunning the paddock with a Round 3 win at the Madras International Karting Arena and a double in Coimbatore, Arshi sealed the National crown at the final round, winning both the pre-final and the final.

She made her National debut in early 2024 with the Meritus Cup before moving into the Rotax Nationals, becoming the youngest female to receive a National Karting License — a feat recognised by the India Book of Records. In September 2025, Arshi was selected by the FMSCI to represent Team India at the Asia Pacific Motorsports Championships in Sri Lanka, where she finished fourth in the mini category.

2 The Wrestling Federation of India (WFI) revoked the suspension of Paris Olympics bronze medallist Aman Sehrawat and promising wrestler Neha Sangwan for jumping their weight limits and getting disqualified at the World Championships and World Under-20 Championships, respectively. The WFI took the decision after receiving apology letters from the two wrestlers and consulting the top coaches of the country. It has made both the wrestlers eligible to take part in different events, including the Asian Games next year. Neha (59kg) was overweight at the World U-20 championships in Bulgaria, while Aman (57kg) missed the weight stipulation at the World Championships in Croatia. Neha and Aman had been suspended for two years and one year, respectively.
