

5} The number of Indian batters who have had the misfortune of being dismissed run out after making scores of 150-plus in a Test innings. Jaiswal, in the Delhi Test, is the latest and is also the first Indian opener to be dismissed in that manner. The previous highest by an Indian opener was the 131 by Navjot Singh Sidhu against Sri Lanka in Mohali in November 1997. Incidentally, Jaiswal's 175 is the seventh-highest score by an opener who was run out in Tests. West Indian Conrad Hunte's 260 against Pakistan in Kingston in March 1958 is the highest score.

Indian Test batters dismissed run-out after making a 150-plus

Note: 52 batters have made five or more Test centuries as captain

27} The number of successive Tests India has not lost against the West Indies since its last defeat in Kingston on 22 May 2002. India's unbeaten run against this opponent has been extended now for 23 years, six days. However, this is not a Test record, as England had not lost any of its first 47 Tests against New Zealand, spanning more than 45 years from 1930 to 1975.

10} The number of Test series won in a row by India against the West Indies. Since losing the five-match Test series 2-1 in the Caribbean in April-May 2002, India has not lost a single Test match against this opponent — in the last 27 Tests (spanning 10 series) between the two sides, with India winning 17, and 10 Tests ending in a draw. By doing so, it now equals the Test record for the most Test series wins in a row with South Africa, which had also won its last 10 series against the very same opponent.
