

Bihar Chief Minister Nitish Kumar

Inaugrated the state's first Sports Academy and Sports University in Rajgir.

Building the Foundation: Bihar's Sports Development Strategy

With a vision to increase Bihar's National Games medal tally by 200% by 2030, the state government has laid out a comprehensive roadmap. This ambitious goal requires a multi-pronged approach that includes:

Grassroots Talent Identification:

The state has launched talent scouting programs in schools, colleges, and rural areas, ensuring that no promising athlete goes unnoticed. And the state's philosophy of scouting is potential based and not purely performance based. "It's easy to spot loud talent, but difficult to find whispering talent that truly shines".

Bihar, known for its rich history, cultural heritage, and strong academic legacy, is now making waves in the world of sports.

In recent years, the state has emerged as a growing hub for athletic excellence, thanks to a series of groundbreaking initiatives spearheaded by the Bihar government under Chief Minister Nitish Kumar. Investments in infrastructure, athlete support programs, and a focused sports policy have set Bihar on a trajectory toward national and international success.

A significant achievement for Bihar's athletes! Winning 12 medals, including a gold, after 25 years at the National Games is a testament to their hard work, dedication, and the state's growing sporting culture. The fact that all the medal winners are homegrown talents makes it even more

commendable. This remarkable achievement is a testament to the state's evolving sports culture, driven by strategic planning, modern facilities, and an unwavering commitment to nurturing local talent. Bihar is no longer just participating in competitions—it is now winning, setting new records, and cementing its place in India's sporting landscape.

The Nitish government has made substantial investments in enhancing sports infrastructure across Bihar. A key initiative is the development of a state-of-the-art Sports Complex in Rajgir, spanning 90 acres with an investment of ₹750 crore. In addition to this world-class facility, the government is focused on strengthening grassroots sports by developing Panchayat clubs, local stadiums, and multi-purpose halls across the state. This initiative aims to make sports more accessible, provide athletes with a level playing field, and foster a strong foundation for emerging talent to excel at higher levels.

BIHAR IN NATIONAL GAMES 2025: 1 GOLD | 6 SILVER | 5 BRONZE
