bring them back into the T20I squad?

Look, the way they were removed is wrong. Ideally, the selectors should sit down with Babar, discuss rest, and ensure he returns stronger.

Babar and Rizwan are great players. Their stats are as good as anyone's, but the only difference is that they don't bat aggressively — yet they still score runs. Our players have suddenly decided that everyone in international cricket plays aggressively. Come on, what aggression are we talking about? If they are your proven match-winners, you don't need aggression.

Even legends like Virat often pace their innings slowly before attacking — that's his style. We need to allow our players to play their natural game and ensure they are in the right mental space.

Inconsistent selection: Imam-ul-Haq, out of the Pakistan squad since December 2023, was recalled for the Champions Trophy but featured in only one match. AP
