

the players.

What are your goals for the rest of the season?

Gayatri: Being consistent is one of the main things for us. We're on a break right now, but we'll start playing at the Thailand Open (May 13-18) and Malaysia Masters (May 20-25). Of course, the World Championships (August 25-31) are coming up. So, I'm just looking forward to those tournaments.

In the last few years, the profile of doubles players has witnessed a

significant rise.

Treesa: I'm so happy to see the change. If we play the top-level tournaments and reach the quarterfinals, we get so many messages which boost our confidence.

Gayatri: Satwik *anna* and Chirag are who I really looked up to when I was transitioning to doubles. They have been number one in the world.

That's brought a huge change. After the matches, little kids are waiting for you to give autographs and say that they want to play doubles. It makes us really happy.
