

Pick of British merediths

By C.G.S.Narayanan

'The pleasure of problem chess lies not merely in the difficulty of solution but in the appreciation of the ways in which the mates are brought about' wrote Barry P..Barnes.International Master and FIDE judge for chess composition in his introduction to one of his best authored books 'The pick of the best chess problems'.The selected compilation features 200 two-move merediths, all by British composers.

G.F.Anderson
Il Secolo 1929

Mate in two moves

Problems with not more 12 pieces and not below 8 are Merediths after American composer, who made a lasting reputation for making such relatively lightweight problems towards the end of twentieth century.

The first problem is probably the best ever cross-check made, The key grants the BK two flights and invites checks from the black rook.The matching pair of interferences on the Black bishop is excellent.After the **key 1.Kd6!** the threat is 2.Qb7 1...Rg6+ 2.Be6;1..Rd3+ 2.Bd4.The by play adds spice 1...Kb4 2.Kxc6;1...Kb6 2.Bc2.Gerry Anderson ,master composer of many problems types was the last person to play

chess with that great World champion Alexander Alekhine.

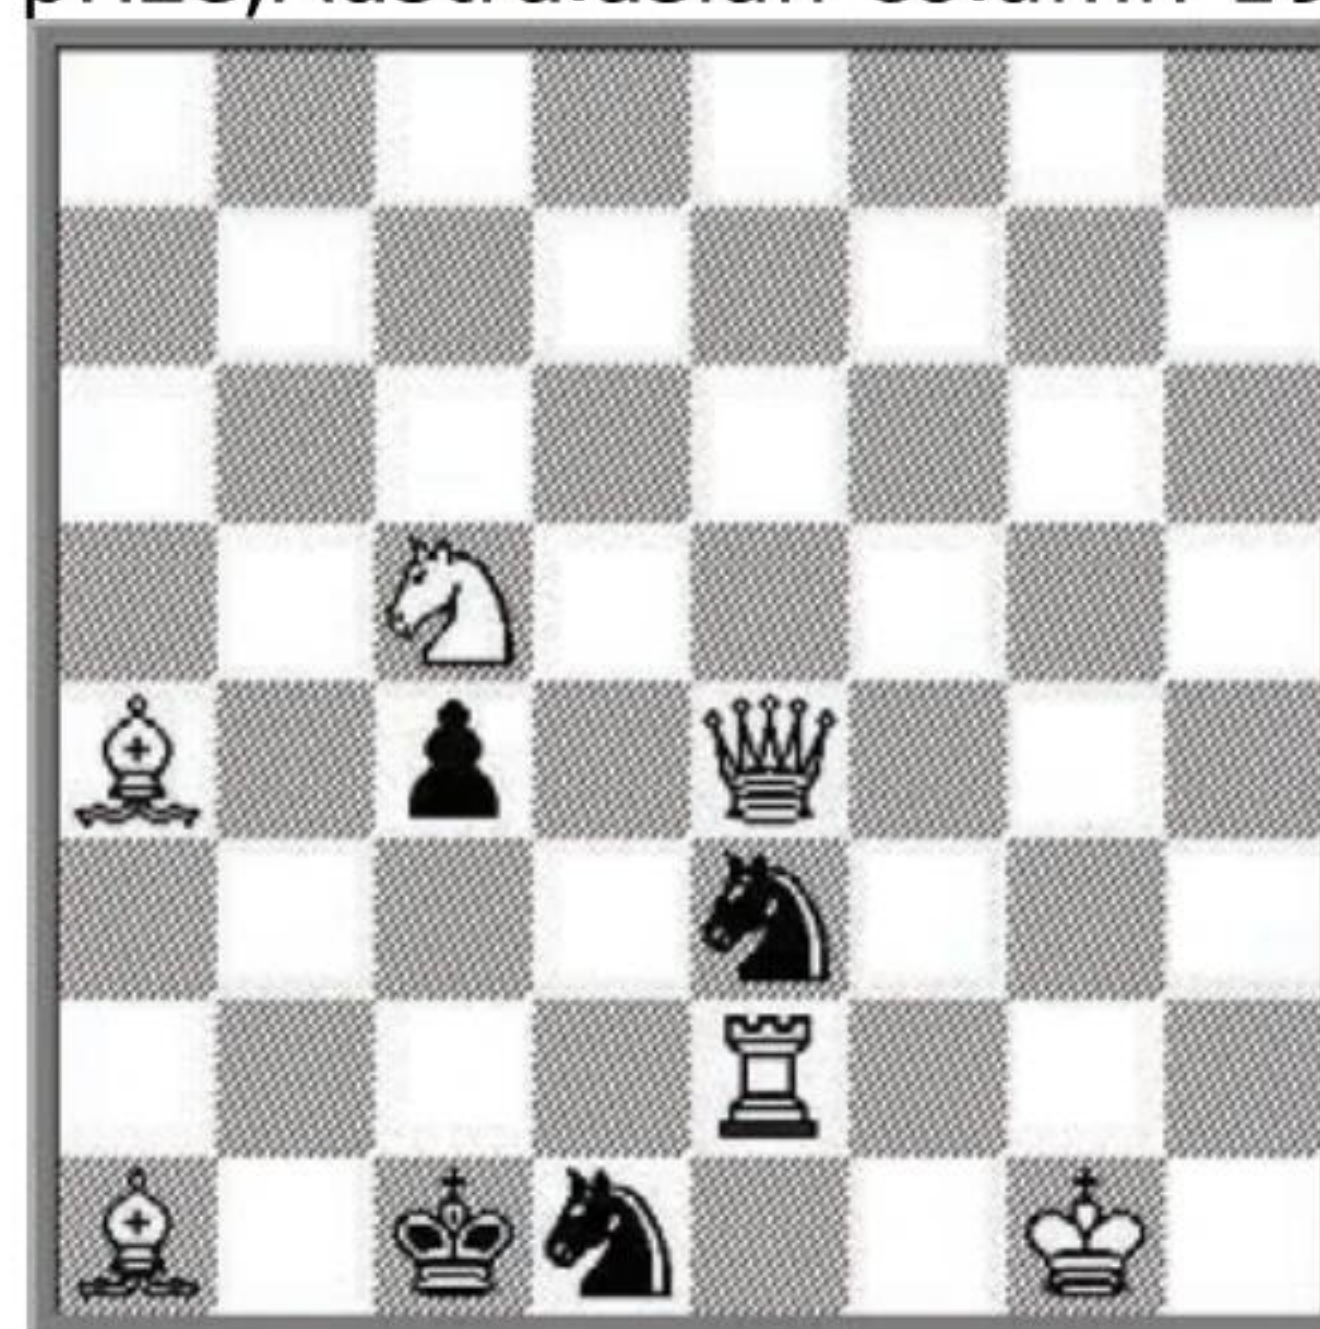

The second problem is a classic mutate with three mate changes.

Key 1.Qb7! waiting

1...eN any 2.Rc2; 1..dN any 2.Qb2;1...c3 2.Nd3.All the mate changes hinge on the guard to b1

Mate in two moves

Soviet chess problem historian and IM E.I.Umnov has described Comins Mansfield as the minstrel of battery play,the recurring theme of Mansfield's work for more than 65 years.The core of this early masterpiece given below for solving revolves around pair of battery mates after black rook captures.

Comins Mansfield

2 pr,Falkirk Herald Meridith Ty 1932

Mate in two moves

Solution to problem for solving in the article 'A study in white correction'

Key 1.Bh5! waiting
