

get us to a Super Over, and then, yes, we were on the right end of it.”

Until the Mumbai Indians vs Rajasthan Royals match on May 1, bowlers had delivered 450 yorkers across 50 games. The frequency hasn’t shifted much from previous seasons — but the impact certainly has.

In IPL 2024, bowlers claimed 28

wickets from 758 yorkers across 74 games. This season, they’ve already picked up 22, with 24 matches still to go. **Batters have struck at just 81 against yorkers — the lowest IPL strike rate for this length since 2020.**

Dot-ball percentage from yorkers has surged to 44.6, the highest ever. The boundary rate — 6.66% — is among the lowest on record,

In the blockhole: Lucknow Super Giants’ Mitchell Marsh is bowled by Mukesh Kumar of Delhi Capitals.
