

The duel feast

By C.G.S.Narayanan

In chess problem jargon there are like sounding terms such as 'dual' and 'duel' with totally different conceptual meaning. Dual is considered a weakness in an orthodox direct mates where more than one mate follow a single black defence. Later in modern compositions 'dual separation' has become an integral part of many themes and considered an embellishment. **Duel** is fairly simple term meaning one-to-one move between two pieces of opposite colour. In the first two-mover below the British GM shows the tussle between BQ and WN which incidentally complete a wheel of tries and key in an elegant setting

Comins Mansfield
I pr, BCPS Ring Ty 1958

Mate in two moves

Tries 1.Nf1? Qa2! 1.Nd1? Qc8! 1.Nc2? Qa1! 1.Nc4? Qa5! 1.Nd5? Qxe8! 1.Nf5? Qd8! 1.Nxg4? Qb8! **Key 1.Ng2!**

The seven tries along with the key complete WN wheel.

Duels have been almost as much studied in tries and refutations as in actual play. After Yugoslavian composer Hrvoje Bartolovic announced a theme in 'Problem' featuring intense duel there was a remarkable burst of composition especially by Serbian composers led by Dragan Stojnic and

an article was published in 'The Problemist'.

A.C.Reeves
Probleemblad 1965

Mate in two moves

Loshinski pioneered in 1930 a full Albino-Pickaninny duet in the direct mate in three-mover. Albino involves four moves WPc2 in the tries and Plickaninny by BPe7 used for the refutations.

Try 1.cxb3 refuted by 1...e7xd6!

Try 1.c3? refuted by 1...exf6!

Try 1.c4? refuted by 1...e6!

Try 1. Cxd3? Refuted by 1...e5!

Key 1.Rb4! with threat 2.Ne4

Problem for solving below is duel between WK and pickaninny by BPc7

V.Bartolovic
Problem, 1970

Mate in two moves

Solution to problem for solving in the article Pick of British merediths : **Key**

1.Ba2!(2.Be6) The star variations are

1...Rxc3 2.Ng6;1...Rxc1 3.Ne6
