

2 These datapoints have been converted into percentiles for comparison, with 100 for the best-ranking team and 8.33 for the worst in the analysis. The shape and area of each radar graph are indicative of the overall abilities of the corresponding team – the larger and more rounded the graph, the better the team.

INDIA

- Most well-rounded team among all participating nations
- Pacers tend to be slightly expensive when the field restrictions are in place
- Familiarity with conditions, coupled with excellent spin batting and bowling numbers, makes the defending champion one of the favourites

* Scotland (ranked 14th) was drafted in after Bangladesh pulled out of the tournament

JOS BUTTLER
England

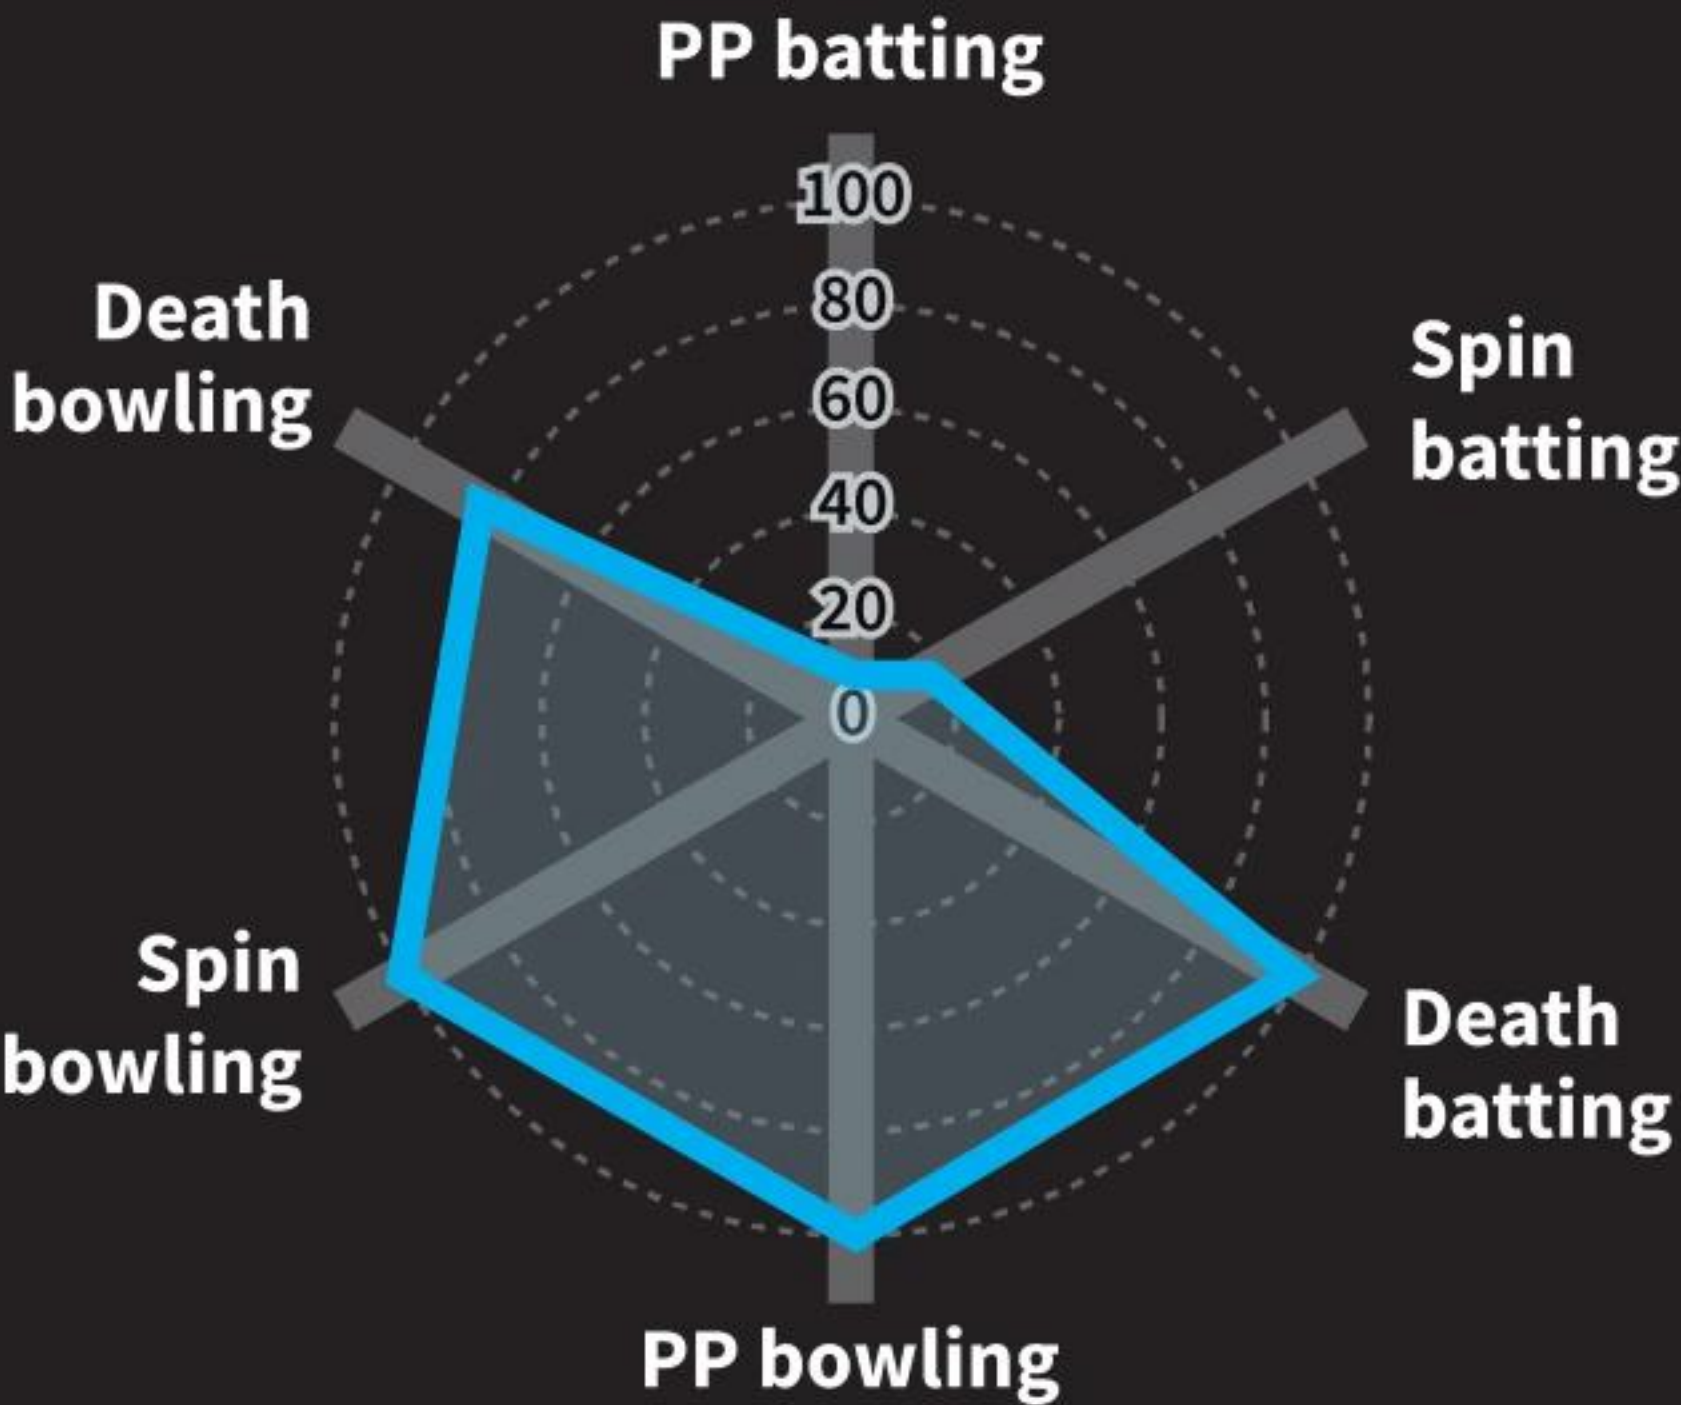

RASHID KHAN
Afghanistan

JASPRIT BUMRAH
India

IRELAND

- Has played only 11 T20Is since the last World Cup, five in the subcontinent
- Strong top-order batting but worsens as the innings progresses
- Bowling resources at the death are a major concern

AFGHANISTAN

- Slow starters with the bat in the PowerPlay, reliant on a big flourish at the death
- The team's spin arsenal is expectedly the strongest among all participating nations
- Four out of eight opponents it faced post-2024 are outside the top 10 of the T20I rankings
