

```
237.         # Quit the game.
238.         print('Thanks for playing!')
239.         sys.exit()
240.
241.     # Handle the move the player selected.
242.     if grid.makeMove(column, row, number) == False:
243.         print('You cannot overwrite the original grid\'s numbers.')
244.         print('Enter ORIGINAL to view the original grid.')
245.         input('Press Enter to continue...')
```

Exploring the Program

Try to find the answers to the following questions. Experiment with some modifications to the code and rerun the program to see what effect the changes have.

1. What error happens if you delete or rename the *sudokupuzzles.txt* file and run the program?
2. What happens if you change `str(y + 1)` on line 91 to `str(y)`?
3. What happens if you change `if y == 2 or y == 5:` on line 99 to `if y == 1 or y == 6:`?
