

Change Display Name of Record Objects

models.py

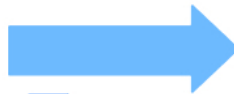

```
def __str__(self):  
    return self.filed_name
```

Select division to change

Action:

- ☐ DIVISION
- ☐ Division object (4)
- ☐ Division object (3)
- ☐ Division object (2)
- ☐ Division object (1)

4 divisions

Edit
models.py

Select division to change

Action:

- ☐ DIVISION
- ☐ Finance
- ☐ Marketing
- ☐ Service Operation
- ☐ Product Development

4 divisions

The records displayed in the **Django admin** site are usually **Model Name + object (#)**, which is not user-friendly. For example, the data records of the *Division* model that we created on the previous page are shown below.
