

2. Pick a color theme for each button

Before adjusting code, it's better to come up with a design principle first. The following is the guidance for color theme selections.

List page

- "Go Detail" button: **primary**

Detail page

- "Update" button: **warning**
- "Delete" button: **danger**

Create page

- "Save" button: **primary**

Delete page

- "Confirm" button: **danger**

3. Copy the class code and paste into the tag to style
