

You can see that the order of the list is changed based on the course title.

Reverse order

To reverse the order, you need to just add '-' before the field name.

employee_learning/views.py

```
class CourseList(ListView):
    # model = LearningCourse
    queryset = LearningCourse.objects.order_by('-title')
    :
```

You can see that the order of the list is reversed.
