

Now, the buttons look better.

The screenshot shows the 'Sign In' page of the 'Training Registration' application. The navigation bar at the top includes 'Training Registration', 'List', 'Create', 'Sign In', and 'Sign Up'. The main heading is 'Sign In'. Below it, a message states: 'Please sign in with one of your existing third party accounts. Or, [sign up](#) for a localhost:8000 account and sign in below:'. There are two links: 'GitHub' and 'Google'. Below these, the text 'or' is followed by input fields for 'E-mail: E-mail address' and 'Password: Password'. A 'Remember Me: ☐' checkbox is present, along with a '[Forgot Password?](#)' link. A blue 'Sign In' button is at the bottom right. The footer text is '2023 Employee Learning'.

In some cases, you may need to put in extra effort into styling. For example, the Change E-mail page below looks ugly.

The screenshot shows the 'E-mail Addresses' page of the 'Training Registration' application. The navigation bar at the top includes 'Training Registration', 'List', 'Create', 'Change E-mail', and 'Sign Out'. The main heading is 'E-mail Addresses'. Below it, a message states: 'The following e-mail addresses are associated with your account:'. There is a list of email addresses with a radio button next to the first one, which is '@gmail.com Verified Primary'. To the right of the email address are three blue buttons: 'Make Primary', 'Re-send Verification', and 'Remove'. Below this, the heading 'Add E-mail Address' is followed by an 'E-mail: E-mail address' input field and a blue 'Add E-mail' button. The footer text is '2023 Employee Learning'.

To fix this, use Bootstrap class and style tag to adjust color, button size, font size, and other properties.
