

The image shows the SendGrid 'Let's Get Started' sign-up page. It features the SendGrid logo at the top, followed by the heading 'Let's Get Started' and the text 'Sign up for free. No credit card required.' Below this are input fields for 'Email Address' and 'Password'. The 'Email Address' field has a checkbox for 'Use email address as username'. The 'Password' field has a toggle for visibility and a note 'Must have at least 16 characters.' There is a reCAPTCHA widget with the text 'I'm not a robot' and a link to 'Privacy - Terms'. At the bottom is a 'Create Account' button. On the right side, there is a 'Try it out!' section with the text 'Send email for free.' and a list of features: 'Automated drip campaigns', 'Password resets', 'Newsletters', 'Receipts', 'Delivery notifications and updates', and 'Promoted emails'. A paper airplane icon with a dashed line trailing behind it is positioned above the 'Try it out!' section.

You also need to fill in your full name and some additional information to create an account.

Create an API Key

After you create an account, you need to create an API key that will be used in the Django setting later. Go to the **API Key** page under **Settings** in the left menu. Click on the **Create API Key** button.

Select **Full Access** unless you want to customize the setting.
