

# Create Superuser and Log In to Django Admin

```
python manage.py createsuperuser
```

Run the command  
from the project  
directory...

```
$ python manage.py  
createsuperuser
```

To log in to the Django admin site, you need to create a **superuser** by running the `createsuperuser` command.

## The createsuperuser command

Run the command below to create a superuser for the Django admin.

### Command Line – INPUT

```
(d_env) project_d % | python manage.py createsuperuser
```

You'll be asked to type a username, an email address, and a password. Django also checks password strength.

### Command Line - INTERACTIVE
