

Add user

First, enter a username and password. Then, you'll be able to edit more user options.

Username:

Required. 150 characters or fewer. Letters, digits and @/./+/-/_ only.

Password:

Your password can't be too similar to your other personal information.
Your password must contain at least 8 characters.
Your password can't be a commonly used password.
Your password can't be entirely numeric.

Password confirmation:

Enter the same password as before, for verification.

After creating a user, you'll go to the **Change user** page. On the page, you can modify permission settings. As a default, the user is registered as a normal user who cannot access the Django admin site. If you want to make the user access the admin site, check the **Staff** status. If you want to give the superuser status, which enables access to all resources of the app, check the **Superuser status**.
