

When you're finished with Learning Log, you'll be able to develop simple web applications, give them a professional look and feel, and deploy them to a live server. You'll also be able to use more advanced learning resources as you develop your skills.

Styling Learning Log

We've purposely ignored styling until now to focus on Learning Log's functionality first. This is a good way to approach development, because an app is only useful if it works. Once an app is working, its appearance is critical so people will want to use it.

In this section, we'll install the `django-bootstrap5` app and add it to the project. We'll then use it to style the individual pages in the project, so all the pages have a consistent look and feel.

The `django-bootstrap5` App

We'll use `django-bootstrap5` to integrate Bootstrap into our project. This app downloads the required Bootstrap files, places them in an appropriate location in your project, and makes the styling directives available in your project's templates.

To install `django-bootstrap5`, issue the following command in an active virtual environment:

```
(ll_env)learning_log$ pip install django-bootstrap5
--snip--
Successfully installed beautifulsoup4-4.11.1 django-bootstrap5-21.3
soupsieve-2.3.2.post1
```

Next, we need to add `django-bootstrap5` to `INSTALLED_APPS` in `settings.py`:

```
settings.py --snip--
INSTALLED_APPS = [
    # My apps.
    'learning_logs',
    'accounts',

    # Third party apps.
    'django_bootstrap5',

    # Default django apps.
    'django.contrib.admin',
    --snip--
```

Start a new section called `Third party apps`, for apps created by other developers, and add `'django_bootstrap5'` to this section. Make sure you place this section after `My apps` but before the section containing Django's default apps.

Using Bootstrap to Style Learning Log

Bootstrap is a large collection of styling tools. It also has a number of templates you can apply to your project to create an overall style. It's much easier to use these templates than to use individual styling tools. To see the
