

Slack

Slack is another online chat environment. It is often used for internal company communications, but there are also many public groups you can join. If you want to check out Python Slack groups, start with <https://pyslackers.com>. Click the **Slack** link at the top of the page, then enter your email address to get an invitation.

Once you're in the Python Developers workspace, you'll see a list of channels. Click **Channels** and then choose the topics that interest you. You might want to start with the *#help* and *#django* channels.
