ANIMESH KUJUR

With a timing of 10.27 seconds, Animesh Kujur was the fastest Indian in the men's 100 metres in 2024. Animesh's personal best effort came in Spain in June. He missed the national record by just 0.04 seconds.

The 21-year-old, hailing from Odisha, also came close to claiming the national record in the 200 metres last year. At the Federation Cup in Bhubaneswar, he crossed the line in 20.62 seconds (another PB), narrowly missing out on Amlan Borgohain's national mark.

In 2025, Animesh will aim to break both records and make a global impression.
