

Turton doubling

By C.G.S.Narayanan

Combinative ideas where two different pieces of like motion are used according to the needs of the situation in the longer movers. Three types of Turton doubling shown in the three and longer-movers are given for study this week. The first one is the classic **Turton doubling** in miniature where the weaker line piece first makes an anti-critical move and subsequently the stronger one comes in front to take part in the proceedings.

Mate in three moves

Key 1.Bh3! waiting

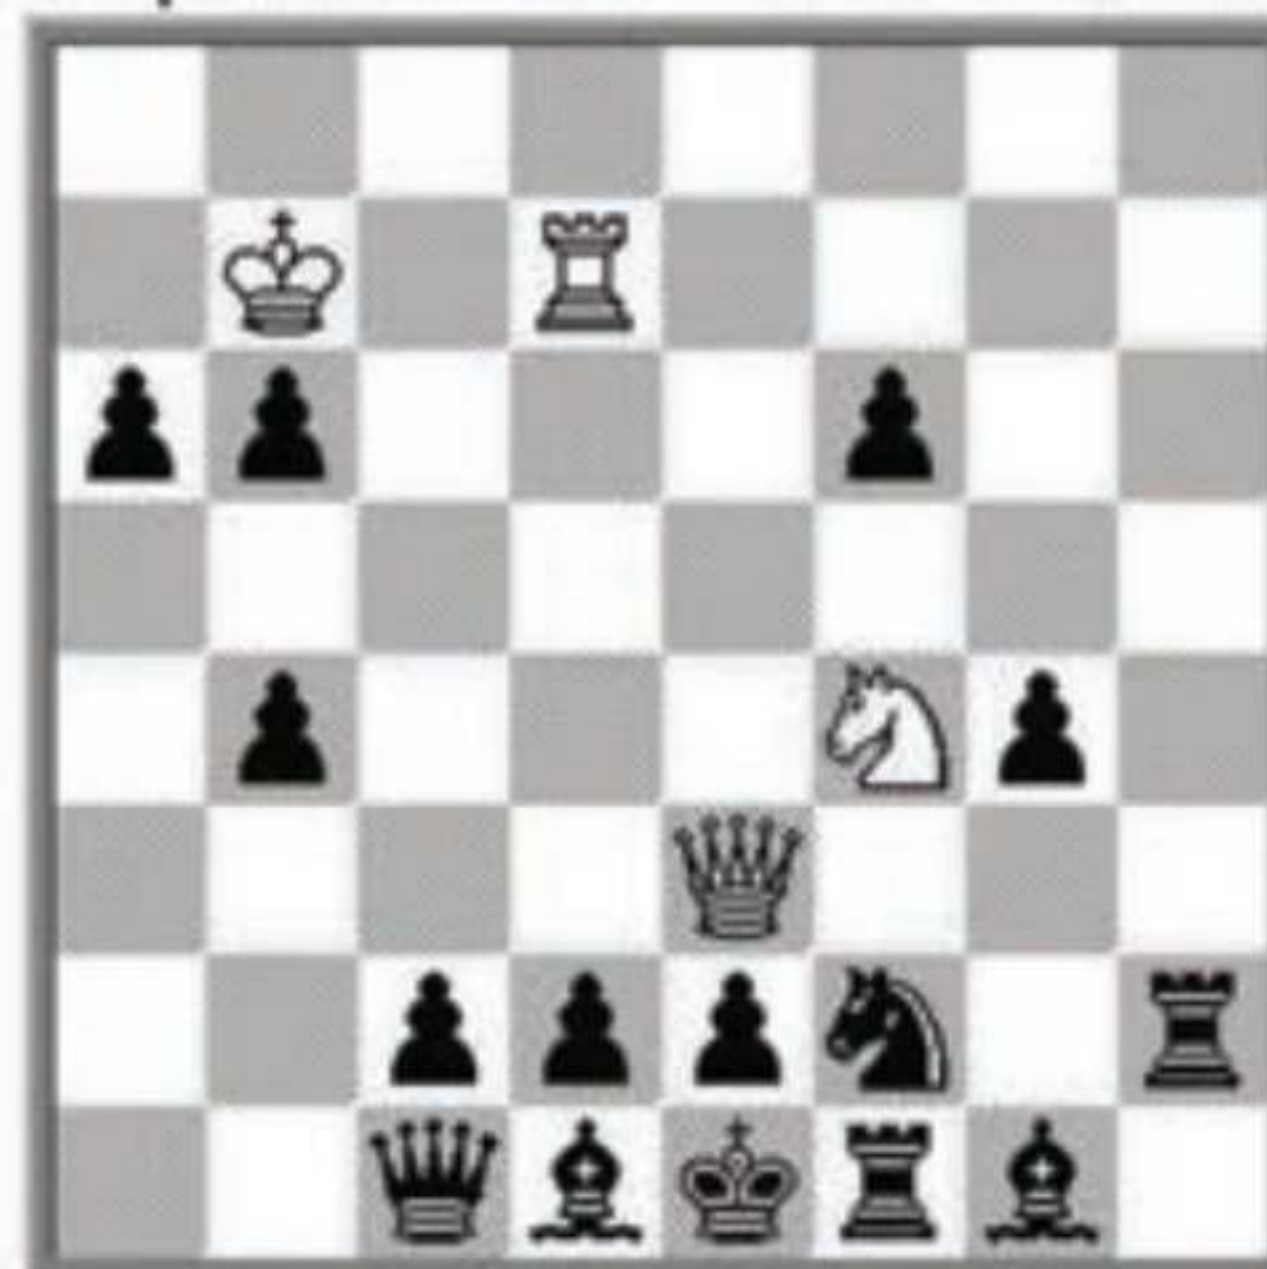

1...Ka8/Kb8/Kc7 2.Qg4 any 3.Qc8
After 1...a5 comes the stunning queen sacrifice 2.Qa6+ Kxa6 3.Bc8

The second problem illustrates **Loyd-Turton doubling** with line pieces of different strength, the stronger one makes anti-critical move first and subsequently the weaker piece comes in front. White cannot play 1.Re7? with 2.Rxe2 as the d1 square gets vacated nor can he play 1.Rh7? 2.Rxh2 for 3.Ng2 because of Rxh7+. So white plays 1.Ka8!, arranges the threat 2.Rh7 followed by 3.Ng2. Now the only defence 1...Rh8+ is met by the brilliant 2.Qe8!! if black plays 2...RxQ+ 3.Ka7 Ra8 ch 4.Kxa8 followed by 5.Ng2. After the sac offer 2.Qe8 if BR still

goes back to defend Ng2 with 2...Rh2 3.Re7 brings the WR in front of WQ threatening 4 Rxe2 BxR 5.Qxe2 mate.

Mate in three moves

Solution to problem for solving in the article "A striking visual theme"

Key 1.Qb1! (2.Nh5+Kxe4

3.Re3)1..Rc4 2.Rc3;1...Rb4

2.Rb3;1...Ra4 2.Ra3;1..Rxe4 Rf3;

1...Rd5 2.Rd4 (3.exd5/Nh5);1...Rd5

2.Rd5(3.Bxe5/Nh5);1...Rd7

2.Rd6(Rf6/Nh5)

Seven magnet theme variations.
