LAST SEASON

Fifth

Well-rounded spin attack

7.13

The economy rate for spinners at the M.A. Chidambaram Stadium, Chennai Super Kings' home venue. This is the lowest among IPL grounds that have hosted more than 15 matches. With Ravindra Jadeja, R Ashwin, and Noor Ahmad in its ranks, CSK boasts a well-rounded spin attack, perfectly suited to exploiting Chepauk's conditions.

Late-order powerhouse

220.54

MS Dhoni's batting strike rate in IPL 2024, the second-highest in any IPL season for batters with at least 100 runs, behind Jake Fraser-McGurk (also in 2024). Last season, Dhoni embraced the role of a finisher, specialising in clearing the ropes during the death overs. He hammered 13 sixes and 14 fours from just 73 deliveries. On average, he found the boundary every three balls. Remarkably, he remained unbeaten in eight of his 11 innings, underlining his effectiveness as a late-order powerhouse.
