**Providing early
breakthroughs**

21.25

Since the start of 2022, Mohammed Shami has had the best PowerPlay bowling average in the IPL among bowlers with at least 10 wickets in this phase. Only Trent Boult (32) has taken more PowerPlay wickets than Shami (28) during this period. With most of its other bowlers excelling in different phases, Sunrisers Hyderabad will rely on Shami for early breakthroughs. The PowerPlay economy rate in Ahmedabad since 2023 stands at 8.38, while Hyderabad, Shami's new home base, sees a slight rise to 9.16. It will be interesting to see how Cummins utilises him in these conditions.
