Vulnerable against spin

14.33

Shimron Hetmyer's batting average against spin in the IPL since 2023. The West Indian power-hitter has a very evident vulnerability against the tweakers, and RR, which has often lacked momentum through the middle overs, will need Hetmyer to overcome it. In IPL 2024, Hetmyer was dismissed by spinners three times in the span of just 17 deliveries and managed to score just eight runs. In the last two IPL seasons, he has fallen victim to spin six times in 77 deliveries, while striking at just 111.69.

RR

CAPTAIN: Sanju Samson
