Ahmedabad

LAST SEASON

Eighth

Slow starters

7.72

Gujarat Titans' run rate in the PowerPlay in 2024 - the lowest in the tournament. The team failed to keep pace with the increasingly high scoring rates in the first six overs, falling behind teams such as Sunrisers Hyderabad (11.17) and Kolkata Knight Riders (11.07) by almost four runs per over during this phase. Gujarat was the only team to score at under eight runs per over during the tournament in the PowerPlay. GT's openers Shubman Gill and Wriddhiman Saha were the tournament's slowest openers in the PowerPlay (minimum 100 runs), scoring at a combined strike rate of 128.06 during this phase.

Lacking middle-over thrust

22.18

The combined batting average of Gujarat Titans' middle-order (No. 4-7) in IPL 2024 - the lowest in the tournament. With Hardik Pandya leaving the side ahead of the 2024 season, Gujarat struggled to find stability in the middle-order, and its woes were exacerbated by David Miller and Vijay Shankar's indifferent form. Moreover, GT's No. 4 to 7 batters could only score at 8.92 runs an over - the second lowest in the tournament after Punjab Kings (8.59).
