

Death-over specialist

9.25

Since 2023, Avesh Khan has maintained an economy rate of 9.25 in death overs (16-20). Among pacers who have bowled at least 90 deliveries in this phase, only Jasprit Bumrah and Matheesha Pathirana have performed better. Additionally, 15 of Avesh's 27 wickets over the past two seasons have come during the death overs. Only three pacers boast a lower boundary percentage than his 19.21% in this phase.

Despite being traded to Rajasthan Royals last season, Avesh's effectiveness at the death has seemingly convinced LSG to bring him back. With Mohsin Khan and Mayank Yadav set to lead the attack in the PowerPlay, Avesh is likely to be deployed primarily in the latter half of the innings.

BEST FINISH - ELIMINATOR
(2022 & 2023)

LSG

CAPTAIN: Rishabh Pant
