Rally round the West Indies

Forever in the shadow of their predecessors, this is a **golden chance** for Rovman Powell and his men to lay the ghosts of a legendary past to rest.

The West Indies has a proud history of T20 cricket. Until England won the last T20 World Cup, the Windies were the only team to have won the coveted T20 silverware twice. They premised their game on fearlessness, aggression, and boundary-hitting.

The last two T20 World Cups haven't gone according to plan for the Caribbean lads. They crashed out

of the 2021 edition in the Super 12s, with four defeats from five games and were eliminated in 2022 after finishing bottom of their group.

One of the criticisms aimed at the West Indies cricket team, particularly in T20Is, has been its one-dimensional focus on power-hitting.

This approach often resulted in a lower percentage of strike rotation and a higher number of dot balls. In

other words, the team's 'hit or miss' strategy was no longer effective. As the T20 format evolved, so did the opposition.

However, it's important to note that West Indies has not abandoned its fast-paced scoring approach. In fact, since November 14, 2022, it has had the third-best run rate (9.80) among Full Member Nations, just behind Australia and South Africa. Additionally, it has the third-highest
